

Paving notice re: Roundabout in front of Church
Paving to be done Thursday and Friday, June 4 and 5.

As the County finishes up the Roundabout project, the final paving will be done this week. This work should be done during daylight hours. Please note for your own travel purposes:

Wednesday June 3: road and entrance sections will be closed for short periods for milling the road.

Thursday, June 4: The following road sections will be closed:

Navesink Avenue from Hartshorne to the Roundabout
Locust Avenue from the Roundabout to just past Osborne.
The entire Roundabout will be closed

Other Notes for June 4:

Navesink Avenue will be closed from Route 36 (by the CVS) onward—only local Navesink Avenue and Hartshorne traffic will be allowed.
Oakdale Run will remain open but can only be accessed off of Valley Road/Miller's Crossing.
Locust Avenue can be accessed by going around via Monmouth to Locust Point Road.

You will only be able to access the church during the day on Thursday by using Miller's Crossing to Oakdale Run, and walking in from there. Church entrance off of roundabout will be closed.

Friday, June 5: The following will be closed

Valley Road from the Roundabout to Miller's Crossing.
Entrance to Oakdale Run off of Valley Road (by roundabout).
Monmouth Avenue in the area where it meets Valley Road.

Notes for June 5:

Valley Road traffic will be diverted down Miller's Crossing to Monmouth to Locust Point Road to Locust in order to get to roundabout.
Monmouth Road traffic will be directed to go around by Locust Point Road.
Navesink Avenue to the roundabout should be open by then, as will Locust Avenue.
Church entrance at Roundabout will be open.

Please plan your routes accordingly! Thank you.
