

## GUIDE WHEELS by VULKOPRIN

Products made of

- Vulkollan® polyurethane 92 Shore A,
- Printhopan® thermoplastic polyurethane 59 Shore D,
- Printhalon® polyamide PA6

**10-260 kg**

**18-125 mm**

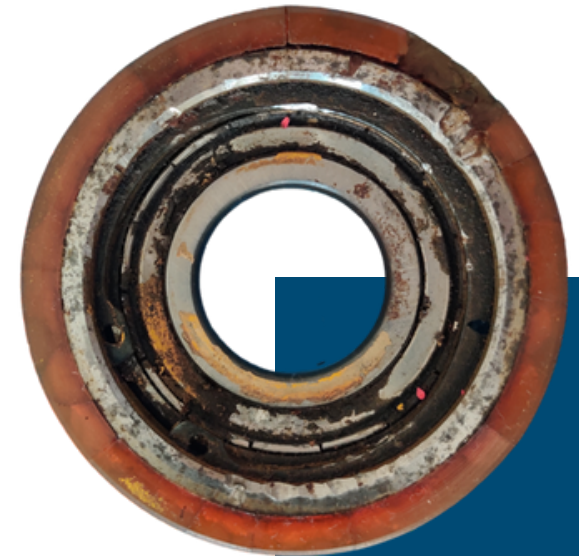

**6-32 mm**

## Reliable Performance

### Applications:

Conveyor and transport systems, sorting systems, goods handling, revolving doors, conveyors, fitness equipment, lifts, escalators, robots and automations, warehouse cranes, cable cars in cranes, harbour cranes, skid rollers, shuttles

## Experience The BEST

## Maximum Service

# Durability Reliability & Quality.

ZZ or 2RS precision ball bearing, stainless steel core, roughened tread, corrosion resistant stainless steel bearings, hydrolysis resistant Vulkollan®, cold store bearings, rectify tread, convex or concave tread, alternative hardnesses for higher load capacity

## → VK RK

VKRK series with tread made of Vulkollan® polyurethane on precision ball bearing ZZ of 2RS. Load capacity from 25kg till 260kg. [Link to all dimensions and 3D-drawing.](#)

## → WUPD

WUDP series with tread made of Printhopan® thermoplastic polyurethan 59 Shore D on precision ball bearing ZZ of 2RS. Load capacity 10kg till 260kg. [Link to all dimensions and 3D-drawing.](#)

## → PG ZK

PGZK series with tread made of Printhalon®G (6PLA) injected polyamide on precision ball bearings ZZ of 2RS. Load capacity 200kg. [Link to all dimensions and 3D-drawing.](#)
