

nce upon a time, high up a big mountain in the middle of a great forest there was a small cabin. This cabin was not your typical cabin, for this cabin was somehow against all probability a fully functioning restaurant. How this cabin came to be a restaurant is unknown, perhaps sorcery or sheer stubborn willpower made it so. Now small cabins don’t typically hold restaurants, but that’s what makes Cafe Aroma special, odd and wonderful - it is that magic that surrounds the place. So while you gather over a meal, perhaps you remark that typically cabins do not become restaurants, and know that’s why we do things a little bit differently, because truly we have limitations most restaurants do not. Gather friends & be welcome.
