Who We Are

Western Civil Group was formed in 2025 through the merger of two well-established civil construction companies from the Dubbo region, alongside the integration of a highly-regarded local transport company. This strategic amalgamation brings together industry expertise and resources to deliver premier earthworks and civil infrastructure solutions.

WCG is a family-owned and operated business with over 40 years of combined experience dedicated to the Central West. We are proudly ISO-certified in Quality (ISO 9001), Safety (ISO 45001), and Environmental Management (ISO 14001), with all certifications accredited by JAS-ANZ. As active members of the Civil Contractors Federation (CCF), we uphold industry best practices and contribute to the advancement of civil construction standards across the region.

Company directors Mark and Lachlan are committed to connecting, collaborating, and creating with the community. They achieve this by continually engaging with trusted local contractors, many of whom they've built long-standing, well-established partnerships with. With a strong foundation and reputation built on integrity, quality assurance, and reliability, Western Civil Group delivers exceptional results - no matter the job. More than just a service provider, Mark and Lachlan are part of the community - invested in its growth, development, and prosperous future.

The Directors

MARK RICE

Director

Bachelor of Applied Science

Mark has dedicated his career in civil construction over the last 3 decades to creating lasting impacts on local infrastructure through land development, road building and subdivisions

LACHLAN COLBRAN

Director

Bachelor in Extractive Industries

Lachlan has made moves within his career from plant operations, to managing large scale projects that align with his passion for site development, both bulk and detailed excavation and land remediation

BRODIE STONE

Lead Hand Operator

AMELIA RICE

Safety & Operations Manager

MARDI COLBRAN

Accounts Manager

GRAHAM COLBRAN

Freight Operations Manager

Our Accreditations

DELIVERING QUALITY

ISO9001 - Quality Management Systems

PRIORITISING SAFETY

ISO45001 - OHS Management Systems

ENVIRONMENTAL SUSTAINABILITY

ISO14001 - Environmental Management Systems

Our Ethos

DIVERSE OPPORTUNITY

WCG always aim to not only meet, but exceed, procurement protocols when approaching contractors on our projects

LOCAL-MINDED

WCG is a grassroots company that believes in continually pouring back into the area in which we live. We understand that an empowered community, is a thriving one.

LASTING IMPACT

Civil construction contains work where the better it is done, the less you will see it. We walk away from every job knowing that the foundations we have laid, even if they are buried, reflect the pride we take in delivering quality work.

Key Projects

FIRGROVE ESTATE

Project

170 lot rural residential subdivision 'Firgrove'

Location

Dubbo, NSW

Project Value

\$10 million

Client

Bourke Securities Pty Ltd

During its development in the early 2000s, Mark played a pivotal role in shaping the project, ensuring meticulous construction and long-lasting infrastructure.

The transformation of the site was a significant undertaking, requiring extensive earthworks and careful planning to establish a foundation that would support homes and community growth for generations.

Beyond residential development, the project also demanded critical civil works, including two substantial creek crossings over Eulomogo Creek. These crossings incorporated culverts, expertly engineered headwalls, and roadway construction to ensure durability, accessibility, and environmental integrity.

'Firgrove' stands today as a testament to the expertise and dedication poured into its development, with its foundations supporting families and future growth in Dubbo's thriving landscape.

Key Projects

WELLINGTON BESS

Project

300 MW / 600 MWh Wellington Stage 1 Battery Energy Storage System (BESS)

Location

Wellington, New South Wales

Project Value

\$300 million

Client

RJE Global

Western Civil Group is proud to have played, and continue to play, a key role in the staged civil delivery of the Wellington Battery Energy Storage System (BESS) project, supporting critical infrastructure for NSW's renewable energy future.

The team's engagement began with the upgrade of the initial access driveway, ensuring safe and compliant entry for early works and site mobilisation.

Following successful delivery, WCG were contracted to construct the main access road, providing durable, all-weather connectivity for heavy vehicle movements and long-term operational access.

Recognising WCG's performance, responsiveness, and commitment to quality, the client extended the scope even further to include intersection upgrades - enhancing safety and traffic flow at key entry points and ensuring compliance with regional road authority standards.

Our progressive involvement reflects not only our technical capability, but also the trust placed in us to deliver high-impact civil works in complex, regulated environments.

Key Projects

HOLMWOOD ESTATE

Project

215 Lot Residential Subdivision "Holmwood"

Location

Dubbo, NSW

Project Value

\$17 million

Client

Rice's Ridge

Holmwood Estate' stands as a hallmark of modern residential development, blending accessibility with the tranquility of country living. Established in the 2010s, this subdivision was meticulously designed to accommodate the evolving needs of families, ensuring spacious lots, quality infrastructure, and seamless integration with Dubbo's growing landscape.

The development process was a transformative undertaking, involving significant earthworks and strategic planning to create a foundation that would support long-term growth. Alongside residential construction, the project also required critical civil works, including road networks, drainage solutions, and environmental management systems to enhance functionality and durability.

With a strong focus on sustainability and longevity, 'Holmwood Estate' reflects the expertise and foresight that went into its development. Today, it remains a highly sought-after community, with its infrastructure standing as a testament to precision engineering and quality construction.

THE WESTERN CIVIL GROUP DIFFERENCE

The accreditation and systems of big business, with the heart of the small town

Western Civil Group is known for their straightforward and no-nonsense approach to work. Mark and Lachlan bring a wealth of local connections, ensuring that your project runs efficiently. With every contract, they leverage their extensive network of trusted, well-vetted businesses and individuals, to create a seamless and reliable chain of local support.

Similarly to the most qualified contractors, WCG own and use only the latest, well-maintained and efficient machines and equipment. Their reputation is a top priority, which is why they personally oversee the quality at every stage of the project. With a focus on delivering on time, within budget, and surpassing client expectations, they ensure every detail is handled with the utmost care and professionalism.

“Very proactive and solutions focused team. They have become a supplier we can rely upon for high quality work, a high standard toward safety & environmental compliance. Projects delivered on target & to a standard that is above and beyond... We appreciate Mark for his reliable, easy to work with approach to meeting our site’s needs.”

“The service is always excellent delivering on time and budget across numerous projects. Best of all Mark Rice, Director of Western Civil Group takes a personal interest to ensure success.”

“We have worked with the team to gravel roads in flood affected areas... [Lachlan] assessed the damage with great attention to detail [and] coordinated all operational requirements with us throughout the project... The work was completed on time to a high standard. Roads are now passable again, making critical transport operations on farm safer and more accessible.”
