Made in Canada

Dealer Marketing & Promotions Inc. always strives to supply high quality products made in Canada. The recent unrelenting rise in shipping, raw materials and labour costs has affected the vinyl product line and pricing is not stabilized enough for us to publish pricing. Please give us a call for a quote. Your understanding is much appreciated. Thank You Olga Fatsis - President

## RFID Keyfob Pouches • Spring Hook Key Boards

### RFID Keyfob Pouches

Polyester Canvas with RFID copper fabric lining

Car theft has become more sophisticated. Using signal amplification, would-be thieves can unlock and operate a vehicle without having to physically break in. Our RFID KEY FOB POUCH will block key fob signals and help maintain the integrity of your vehicle's security system. It protects vehicles from malicious entry by disrupting and blocking a key fob's constant signal from other radio frequency signals.

The copper lined pouch is designed to prevent anyone from using skimming tools that copy or mimic your key fob's unique signal and wireless code used to gain access to your vehicle or keyless entry system. Once a device is properly enclosed in the pouch, no signal can penetrate or be hacked.
