

HACKETT HARROWS

Paddock Range

William Hackett *Chain Products Limited*

Reasons for harrowing

Harrowing removes dead thatch lifts vegetation up and levels any mole hills. Its job is to allow air movement and root aeration which helps the soil to breathe and improves water infiltration. It reduces disease by exposing fungi and bacteria to sunlight which is essential for the health of the pasture.

Timing is critical and ideally harrowing should be undertaken in dry, warm conditions, as the harrows break up and spread any droppings allowing them to dry out and kill any parasites.

When used on sports fields they are very effective at removing and spreading worm casts and ripping out moss and can be used for levelling all weather race tracks and indoor or outdoor jumping arenas and maneges.

Reasons for harrowing

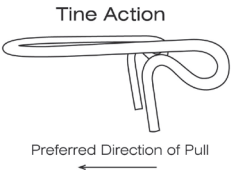

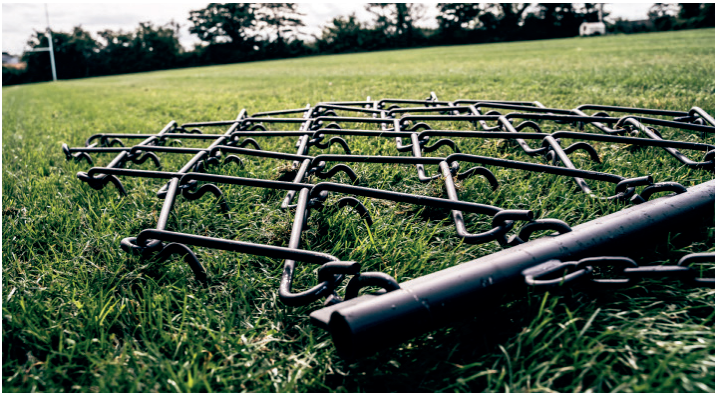

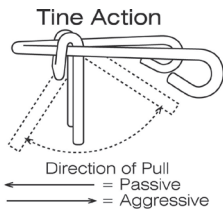

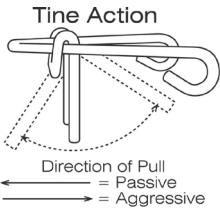

Reasons for harrowing include:

- Removal of dead grass from the base of healthy grass.
- Helping to remove lightly rooted weeds.
- Root aeration; for better water infiltration and growth.
- Surface levelling in equestrian centres, race tracks, and running tracks.
- Stimulates growth by aerating and tearing out thatch.
- Environmentally friendly grass care.
- Excellent for ripping out moss, spreading manure, and levelling mole hills.

Harrow styles

Paddock harrows are designed to cover all applications from small holdings, vineyards, sports arenas, equestrian centres and levelling gravel driveways.

Applications

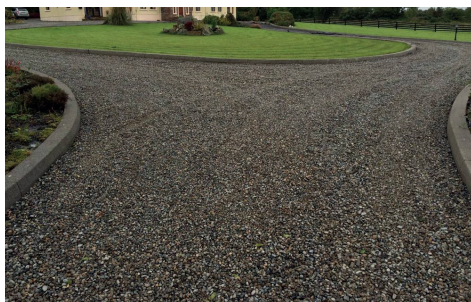

Sports ground preparation

Levelling horse arenas/manege

Levelling gravel driveways

Harrowing between vines

Mounted range

Mounted Harrows are available in widths from 4'-0" to 12'-0" with a depth of 5'-0" and are designed for use with compact tractors. Harrows with a working width over 4'-0" are manual folding and all fold to a width of 4'-0" for transport.

Specifications

MOUNTED HARROWS

Type	Depth	Tine Size	Working widths and Weight (Kg) Complete			
			4'-0	6'-0"	8'-0"	12'-0"
Paddock Grass	5'-0"	½" dia x 2½"	115	125	145	175
Paddock Flexible	5'-0"	½" dia x 3½"	125	155	170	215

TRAILED HARROWS

Type	Depth	Tine Size	Working widths and Weight (Kg) Complete			
			4'-0"	5'-0	6'-0"	8'-0"
Paddock Grass	5'-0"	½" dia x 2½"	37	47	62	77
Paddock Flexible	5'-0"	½" dia x 3½"	50	65	86	107
