- [Learn-to-Skate](#) students will be assigned a "holding area" near the snack bar to watch & wait for their song. Please meet your skater after the rehearsal near the snack bar area downstairs. There will be signs that clearly mark holding areas.
- [Special Olympics](#) students will be assigned a "holding area" near the scoreboard end of the rink.
- Bring a jacket, gloves, old towels for feet (helps keep feet dry & clean during costume/skates on & off changes) plus a throw to put on benches for warmth.

*A Note About Spotlights and LED Can Spotlights on Ice |The Importance of Dress Rehearsal

- Skating with three spotlights will feel different at first. This is one reason why dress rehearsal is so important.
- Please tell your skater NOT TO LOOK UP AND DIRECTLY INTO THE SPOTS or into the lights along the boards on the audience side. Spots are located above the bleachers upstairs and the new smaller lights will be on the audience side on the ice. Looking into the lights WILL BLIND THEM. Look and play to the audience.
- We will run the entire show beginning to end with all costume changes and spotlights and screen on the ice. We will run the finale first, then skaters can leave after their numbers are finished.

Additional items to bring & to do

- Please consider bringing safety pins, bobby pins and tape.
- Please clean your skates and laces to remove marks. Laces should be washed or replaced.
