

THE MVSA TINY MITES PROGRAM Starts the Week of Sept 12th

The Tiny Mites Program is designed to assist hockey players who want to build the necessary hockey and ice-skating skills that will enable them to join the MVIA Vancouver Rangers 6U Mini Mites In-House program. Our highly experienced MVSA coaches will guide players through the Tiny Mites program and assist each player in determining when (or if) they are ready to join the Vancouver Rangers 6U program.

What Will You Learn in the Tiny Mites Program?

Hockey players will learn basic ice-skating skills as well as hockey drills in a fun and engaging environment. Players will progress through different skating skills and build their hockey ability weekly throughout a seven week program. All Tiny Mites coaches are trained in Learn-to-Skate and/or Learn-to-Play program dynamics in order to help your player succeed in their hockey career.
