LETTER OF NOTIFICATION

Date: January 27, 2025

Re: Proposed Invasive Aquatic Plant Management Program – Mountain View Lake

The Mountain View Association is applying to the New York State Department of Environmental Conservation (NYSDEC) and the Adirondack Park Agency (APA) to use an aquatic herbicide in the late spring of 2025 to control the invasive plant Eurasian Watermilfoil in portions of the lake. A map of the treatment areas appears below:

The herbicide, ProcellaCOR EC, will control invasive Eurasian watermilfoil for multiple seasons in the treatment areas, but can have minimal impact on native plants. ProcellaCOR EC will be applied at less than 10 parts per billion (ppb), a rate which is significantly lower than most other aquatic herbicides. The Program will be conducted by a licensed applicator with

the lake management firm Ready Scout, NYSDEC Pesticide Business Registration No.18575. NYSDEC and APA permit applications are submitted for approval for the treatment.

It is anticipated that the treatment will take place on **one day between May 15 and June 30**, pending permit approvals and the appropriate stage of target plant growth. Notification of the actual date of the treatment will be submitted to the Association, the APA and NYSDEC at least 7 days prior to application. The road access points along the lakeshore will be posted at the time of the treatment indicating applicable water use restrictions. Following application, livestock watering and irrigation (except for turf) will be restricted until the concentration of the herbicide measures < 1 ppb. Water samples will be collected to determine the concentration of herbicide in the water and identify when the livestock watering and non-turf irrigation restrictions can be removed. This is anticipated to take 7-10 days. **There are no restrictions on swimming, fishing or potable/domestic water use.**

A public meeting to discuss the application is scheduled for Tuesday, February 18 at 6:00pm. The meeting will be held at OHMV Community Center, 1977 County Route 27, Owls Head NY 12969.

The product label is available for review at the website link below:

[https:// www.ready-scout.com/product-label-info](https://www.ready-scout.com/product-label-info)

In the event that you as a riparian (shoreline)owner/user have any questions or objections to the water use restrictions, please contact the following agency within 21 days of receipt of this notice. Your objection must be in writing. Lack of comment will be considered consent to the treatment and water use restrictions.

Donald J. Nelson

Pesticide Control Specialist 3 | Adirondack / Finger Lakes Pesticides Management Section Supervisor
NYSDEC Region 5, Bureau of Pesticides Management
232 Golf Course Road
Warrensburg, NY 12885-0220

If you wish further information about the proposed management program or need a printed copy of the product label, please contact the Mountain View Association or Glenn Sullivan of Ready Scout at GPS@ready-scout.com.com or 908-310-8775 between 9:00 am and 4:00 pm, Mon - Fri.
