

**2024 High Efficiency Propane Furnace Rebate Program Rules
Residential Only - \$250.00**

(Installed on or after January 1, 2023 - no exceptions)

I. PURPOSE

The purpose of the program is to promote the use of **Residential High Efficiency Propane Furnaces/Boilers**.

II. AVAILABILITY OF FUNDS

The program is funded through a refund of assessments paid by Propane Marketers to the Iowa Propane Education and Research Council. **Once the pool of rebate dollars is exhausted, no additional rebates will be processed. This is not a government program and it may be terminated or revised by the Iowa Propane Gas Association (IPGA)/IowaPERC at any time. The program may be put on hold or discontinued when funds are not available.**

III. ELIGIBILITY

A. Propane Marketers: The program is **not available** to the public except through Propane Marketers. The Propane Marketer is responsible for documenting that an eligible installation has been performed, that all propane furnaces/boilers (installed and/or replaced) have been correctly identified, and that a **safety inspection in accordance with these program rules has been completed.** Propane marketers must submit the completed application to Iowa Propane Gas Association/IowaPERC for consideration.

An eligible propane marketer is one who:

- operates or manages a retail business, including any branch, outlet or outlets, delivering odorized propane to consumers in Iowa; and
- is a regular supplier of propane to the consumer.

The Propane Marketer seeking a rebate must submit a full and complete application form. Submission of the application form constitutes a representation on the part of the participating Propane Marketer that the work shown on the form and any attachments thereto has actually been completed and that the submission is true and correct in all respects. **The participating Propane Marketer must perform a safety inspection or the company's designated agents after the installation of each new qualifying residential high efficiency propane furnace/boiler** and the result of that safety inspection must be documented and sent in with the application. **The safety inspection must meet the requirements set forth in Section III (H) of these program rules.** The Propane Marketer agrees to comply with all laws, rules and regulations governing the installation, inspection and testing of the propane piping system. The Propane Marketer acknowledges that the Iowa Propane Gas Association/IowaPERC is only giving a rebate for the qualifying residential high efficiency propane furnace/boiler and assumes no responsibility whatsoever for the installation, inspection or testing of the qualifying residential high efficiency propane furnace/boiler or any associated gas system. The propane marketer acknowledges that the Iowa Propane Gas Association/IowaPERC is relying on the propane marketer and its submission with respect to the installation, testing and inspection of the propane piping system, and the Iowa Propane Gas Association/IowaPERC expressly disclaims all liability for the same. By issuing a rebate, the Iowa Propane Gas Association makes no representation, warranty or guarantee regarding the qualifying residential high efficiency propane furnace/boiler or the associated gas system. The Iowa Propane Gas Association/IowaPERC disclaims any liability for any personal injury, property damage, business losses or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly arising from the installation of the qualifying residential high efficiency propane furnace/boiler.

B. Consumers: Consumers may only receive a rebate through a propane marketer. Only a propane marketer may apply and submit the rebate form. The rebate payment will be made directly to the propane marketer. The customer must agree to the regulations and conditions stated on the application form including allowing a safety inspection of the propane piping system and agreeing not to modify or move the installation. A charge may occur for the safety inspection, please visit with your propane marketer. The residential high efficiency propane furnace/boiler installation address must be in **Iowa**. Only one furnace/boiler rebate per consumer.

C. Eligible installations: The current program may authorize rebates for eligible **Residential High Efficiency Propane Furnaces/Boilers installed in Iowa on or after January 1, 2023:**

- A **\$250.00** rebate for authorized residential high efficiency propane furnace/boiler installations in Iowa; which occur in new construction; or to replace an existing electric or natural gas furnace with a new high efficiency propane furnace/boiler; or to replace an existing propane furnace/boiler with a new high efficiency propane furnace/boiler; or to replace an existing fuel oil furnace with a new high efficiency propane furnace/boiler. New propane furnaces/boilers must be a high efficiency propane furnace/boiler to be eligible for this rebate program.

- Installations performed on motor vehicles, travel trailers, mobile homes or manufactured homes that are not in permanent residential use in Iowa; are not eligible for rebates under this program. The installation must take place on real property, occur within the effective dates of this program and, be located in the state of Iowa.
- Eligible residential propane furnaces/boilers are defined as high efficiency. Only the following residential propane furnaces/boilers are eligible for the rebate: **High Efficiency Propane Furnace Rating of 95% AFUE or greater and High Efficiency Propane Boiler Rating of 85% AFUE or greater.** The high efficiency **Brand and Model Number** must be provided on the application form.

You can check eligibility at <https://www.ahridirectory.org>.

D. Limits: No more than one residential high efficiency propane furnace/boiler rebate shall be paid for each eligible Iowa residential installation. **LIMIT ONE RESIDENTIAL PROPANE FURNACE/BOILER REBATE PER HOUSEHOLD IN IOWA.**

E. Compliance: Iowa Propane Gas Association/IowaPERC approves each application individually. Missing data or factual errors may delay or disqualify the application. Here are criteria for rejection applications:

- Incomplete application (signatures missing, copies not attached, etc.) Forms will be returned to the submitting marketer for correction or denial. Limited time is given for corrections. Money is not guaranteed under any circumstances.
- False or misleading information. An applicant or propane marketer may be suspended from or declared ineligible to participate in the rebate program if the IPGA or IowaPERC Board judges that the applicant or marketer has submitted false information or otherwise violated program rules. Within 30 days after the IPGA or IowaPERC Board suspends or declares a participant ineligible, the applicant or propane marketer may appeal the action by submitting the appeal in writing to the IPGA/IowaPERC Boards. Actions taken by the IPGA/IowaPERC Board with respect to such appeals will be final. A propane marketer or applicant who submits false information pertinent to the assignment of a rebate is subject to criminal and civil penalties.

F. Application: Consumers **may not** submit the application form; the Propane Marketer must submit it. **To apply you must complete the 2023 High Efficiency Propane Furnace Rebate Program Application; provide all information required; attach required documentation, including the safety inspection record and invoice showing the purchase and installation of the propane furnace/boiler. Rebate checks will be issued to the Propane Marketer only and must be cashed within 90 days. Inaccurate information on the rebate form can cause delays or disqualification.** Rebates must be submitted on forms prescribed and provided by the IPGA/IowaPERC for this purpose. Applications will be considered on a first-come, first-served basis according to receipt dates of complete and correct applications. Applications must be sent to IPGA/IowaPERC for submission.

G. Payment: IPGA/IowaPERC may approve rebate payments to an applicant subject to availability of funds. **Applicants have no legal right or other entitlement to receive rebates under this program, and receipt of a complete and correct application does not bind IPGA/IowaPERC to approve payment of a rebate to any applicant. This is not a government program and the program may end at any time.** IPGA/IowaPERC authorizes payment of an eligible residential propane furnace/boiler rebate to a propane marketer. The consumer and the propane company must both sign the application. Rebate amounts assigned will be those in effect at the time an application is approved.

H. Verification: A safety inspection, conducted by or on behalf of the participating marketer, must be conducted prior to submission of any eligible residential propane furnace/boiler rebate application. **The requirement for a safety inspection; are the testing of the installation of the propane piping system.** A propane marketer will conduct this inspection or the propane marketers designated agent, for verifying that the installation of the propane piping system complies with **Iowa Code section 101.1 – Chapter 226 – “Liquefied Petroleum Gas,” Iowa Administrative Code.** A copy of this code can be found on our website at www.iapropane.org.

I. Complaints: Any person may file a complaint about an installation, an applicant, a propane marketer or another person regarding alleged violations of rebate program rules. Complaints must be submitted in writing to: IPGA - PO Box 57188 - Des Moines, IA 50317.
