

Summer 2019

T-J Gas has moved our office! To 1209 West D St, Vinton. (North of Pizza-Hut, just off highway 218.)

Stop by or call to get low summer pricing for propane fills, pre-pay, budget plans / contracts! Now is the time to prepare for Winter 2019-2020!

Read the enclosed brochure to learn about your payment and delivery options for heating with T-J Gas through this upcoming winter.

Sign up online at www.tjgas.com for paperless billing! Follow the link on the main page. After you enroll, you'll receive emailed statements. Just provide us with your e-mail, and name, and request to start now!

Regular maintenance is necessary for any propane system. When our driver fills your system, he will do a check. For example, if your regulators are out of manufacturers' warranty, they must be replaced. Or if your 2nd stage regulator is not vented properly. An extension would be installed on the regulator so that the vent is proper to code. We do leak checks, tank resets, line locates, repair, and more to provide you with whatever service needed for your propane system.

Looking to replace your furnace or water heater? Rebates are available. From T-J Gas, through the Iowa Propane Gas Association. There is a limited amount of funding remaining this year. Contact us for details, or follow the link on our website through the brochures tab for requirements and eligibility.

Contact Aaron or Tom Pingnot at T-J Gas by phone, e-mail or through the contact form on www.tjgas.com.

Thank you for your business.
