Watch the new movie [AIR](#) on our big screen in the great outdoors. The season for the Warriors might be over, but get back in the game with the real and crazy story about how visionaries turned the game of basketball into a world-wide business phenomenon. ### Build a Bioswale June 10, 10am to 4 pm

*Learn how to turn your yard into a hard working climate action tool!*

Bioswales and rain gardens are suitable for most yards in our area and help reduce flooding, increase hydration in the land to reduce fire prone landscapes, supports native pollinators, and adds beauty to your landscape. MWPCA member Apryl Uncapher, founder of Native Water Systems and designer of the Mill Valley Library Smart Garden system, will be teaching us how to add this water-wise tool into our own yard! She will offer planning and design considerations, answer your questions, and guide us as we gain hands-on experience by building a small bioswale at the clubhouse.

Register for this event [here](#).

**Bring a bag lunch, shovel & work and garden gloves if you have them!**

**...to help us outfit our Community Room!**

We have been working on a new Community Room at the Clubhouse for members to use for meetings, book clubs, etc. We need:

- Floor Lamps
- Comfy & Light Chairs
- Small Coffee Table

**We Want You + We Need You. How?**

**Join/Design a Committee.** You don't need to be on the Board to be involved.
