Applications hereby made to the Codes Office for the issuance of a Building Permit pursuant to the N.Y.S. Fire Prevention and Building Code for the construction of buildings, additions or alterations, as per Part 1203. The applicant or owner agrees to comply with all applicable laws, ordinances, regulations and all conditions expressed within this application which are part of these requirements, and also will allow all inspectors to enter the premises for the required inspections.

Please read the application instructions carefully, complete all parts and include building plans and detailed plot diagram. New York State requires that plans be stamped and signed by a N.Y. Licensed Architect or P.E. if there is more than 1500 square feet of habitable space, or if the cost of the building, addition, or alteration exceeds \$20,000.00, or if the building, addition, or alteration will have an effect on either structural or public safety. The plans will also have to be certified that they conform to N.Y. State Energy Code.

All septic system work must comply with N.Y. State Health Dept. regulations. Applications that include a new septic system will have to show the new system within the plot diagram. A percolation test and septic design must accompany the application and be signed by a N.Y. Licensed Architect or P.E. I request a 72-hour notice for an inspection of a septic system prior to back filling.

INSTRUCTIONS

This application must be completely filled in by typewriter or in ink and submitted in duplicate to the Codes Enforcement Officer.

1. Plot plan showing location of a lot and of buildings on premises, relationship to adjoining premises or public streets or areas and giving detailed description of layout of property must be drawn, which is part of this application.
2. This application must be accompanied by two (2) sets of plans showing proposed construction.
3. Copy of Worker's Compensation Insurance made out to The Town of Lincoln (C-105.2 Form)
4. Copy of Liability Insurance made out to The Town of Lincoln
5. For Home Owner performing all work: Complete Worker's Compensation Exemption Form CE-200 at: www.wcb.ny.gov/content/ebiz/wc_db_exemptions/requestexemptionoverview.jsp
6. For Contractors: If exempt from Worker's Compensation Form CE-200 at: www.wcb.ny.gov/content/ebiz/wc_db_exemptions/requestexemptionoverview.jsp
7. Building Demolition/ Renovation- Industrial Code Rule 56 (New York State Department of labor Asbestos) Shall be completed with, proof of completion submitted to the codes department.

The work covered by this application may not commence prior to the issuance of a building permit. All work shall be performed in accordance with the construction documents which were submitted with and accepted as part of the application for the Building Permit. **Fees are double for all work performed without a Building Permit.**

This Building Permit shall become invalid unless authorized work is commenced within six (6) months following date of issuance. **Building Permit is good for one (1) year.** Building permit and approved plans shall be kept on the premises, and be available for inspection throughout the progress of the work.

No Building **SHALL BE OCCUPIED OR USED** until a **CERTIFICATE OF OCCUPANCY OR COMPLIANCE** has been issued.

Any deviation from the approved plans must be authorized, the approval of revised plans is subject to the same procedure established for the examination of the original plans. An additional permit fee may be charged predicated on the extent of the variation from the original plans.

* Corner lots are considered to have two front yards along the two roadways and two side yards.

** Acre = 43, 560 sq. ft

*** Requirement of actual frontage along public highway, or, if applicable, private access easement

All non-farm accessory buildings shall conform to front and side yard requirements of the sidtrict in which they are located

Notes for Table 1

- a. Measured from the road right-of-way. Applies to each side of a lot that adjoins a public road.

An alternative front yard minimum dimension measurement is permissible from the center of road-ways where neither road right-of-way bounds nor surveys are available: (1) on three rod roads (generally, but not necessarily, Town roads) add 25 feet to the required front yard setback and measure from the centerline of the road; and (2) on four rod roads (generally, but not necessarily, County roads) add 35 feet to the required front yard setback and measure from the centerline of the road.

- b. Where community water supply and sewer are to be used in a subdivision subject to Planning Board review, upon Planning Board approval, smaller lot areas of not less than one-half of the stated lot area requirement and smaller bordering yards of not less than: Lot: 100 feet front x 150 feet depth. Yards: 30 feet front x 20 feet sides x 50 feet rear, may be permitted.
- c. Accessory farm buildings (silos, barns, etc.) are exempt from height limits.
- d. Requires site plan review and approval by Planning Board.
- e. A landscaped screening zone at least 15 feet wide shall be maintained by the owner on those sides of his lot that adjoin any residential property owned by another party.
- f. Each mobile dwelling site shall connect to an access road within the mobile dwelling park, and the front yard of each lot shall be measured from the edge of this access road.
- g. Upon the issuance of a special permit by the Planning Board, not more than two units of supplementary housing are allowed for relatives or hired hands employed by the farm; each unit must be provided with an adequate sewage disposal system; does not require separate lots.
- h. Maximum structure height limitation not applicable to private and public communications towers, which are allowed to such height as the applicant can demonstrate a technical need for effective communications. The determination of such need shall be made by the Planning Board by the issuance of a special use permit.
- i. In addition to all otherwise applicable side and rear yard requirements, along any lot line (other than a front yard) of any use requiring a special permit in the I-C zone that adjoins a residential district there shall be provided a perimeter strip of at least twenty-five (25) feet and there shall be provided and maintained within such perimeter strip a protective
