

Start Here

Every skin journey begins with understanding what your skin truly needs.

Skin Discovery & First Treatment 60-75min | R820

Your first visit includes a skin consultation, barrier assessment and personalised treatment designed to restore balance and prepare your skin for rejuvenation treatments. **You will also receive expert guidance on the most effective treatment pathway for your skin**

Your treatment may include:

- barrier repair treatment
- enzyme therapy
- light resurfacing peel
- dermaplaning

Ideal for new clients or anyone unsure of where to begin.

Refine

For skin that feels dull, congested or uneven.

Bespoke Clinical Facial 60 min | R720

A personalised facial designed to hydrate, repair and strengthen the skin barrier while restoring balance and radiance.

Advanced Chemical Peels 45-60 min | R950 - R1150

Professional resurfacing treatments designed to improve pigmentation, uneven texture and dull skin.

Skin Boost Microneedling 80 min | from R1350

A gentle collagen stimulating treatment to improve hydration, glow and product absorption.

Laser Skin Toning 45-60 min | from R1200

A Q-Switched Nd:YAG laser treatment used to improve pigmentation, tone and skin clarity.

Carbon Laser Peel 60 min | R1050

Utilising a carbon mask and laser, the skin is deep cleansed, exfoliated and visibly fresher.

Baby Plasma Facial 60 min | from 1250

A gentle plasma facial designed to stimulate renewal, improve texture and support early firming without downtime.

These treatments refine the skin's surface and restore clarity.

Beautiful skin isn't created in a single treatment. It is built through intelligent care, collagen support and consistency.

Strengthen

These treatments rebuild collagen and improve long-term skin strength.

Clinical Microneedling 80 min | from 1650

Advanced collagen induction therapy targeting lines, texture and acne scarring. *Best as part of a series of treatments.*

Illumin Revitalisation Resurfacing 60 min | from R1550

An advanced skin resurfacing treatment delivering dramatic skin renewal, improved texture and radiant glow - no downtime.

Tighten

Plasma Skin Tightening from R1500

Advanced fibroblast technology used to tighten delicate areas and improve skin laxity.

These treatments stimulate collagen and rebuild skin strength.

About Us

At Bay Aesthetics, every treatment begins with understanding your skin.

Rather than following rigid protocols, each session is carefully customised based on your skin's condition, lifestyle and goals.

Treatments may include advanced facials, resurfacing peels, microneedling, laser toning or plasma skin tightening - selected to restore healthy, resilient skin that looks naturally refreshed.

Our philosophy is simple:

Correct today. Protect tomorrow.
