S-179 TAX CREDIT

Businesses can take advantage of the **IRS S-179 Tax Credits** on Equipment Purchases. Always, have your customer to contact their CPA for more details.

WHAT IS THE S-179 TAX CREDIT?
Section 179 of the **IRS Tax Code** allows businesses to deduct the full purchase price of qualifying equipment and or software purchased or financed during the tax year. This means that if you (business owner) buy or leases qualifying equipment, you can deduct the full purchase price from your gross income. It's an incentive created by the U.S. Government to encourage businesses to buy equipment and invest in themselves.
