

MULTIPURPOSE FOGGER SURFACE SANITISER DISINFECTANT & PROTECTANT

Pure South™ Multipurpose Fogger Surface Sanitiser and Disinfectant Fogger is a simple and effective way to kill bacteria and protect surfaces for up to 30 days. It eliminates odour-causing bacteria and inhibits mould and mildew, coating surfaces with a microscopic protective layer for continuous protection.

Multiple Applications - suitable for effectively disinfecting and sanitising most spaces. Vehicles, boats, caravans, home and office.

MULTIPURPOSE FOGGER SURFACE SANITISER DISINFECTANT & PROTECTANT

KILLS 99.99% OF PATHOGENS

Pure South™ Surface Sanitiser and Disinfectant Fogger is a broad spectrum antibacterial commercial grade disinfectant that kills 99.99% of bacteria and forms a long lasting invisible barrier which defends surfaces against microbial attack, continually for up to 30 days.

ELIMINATES ODOUR

Inhibits mould and mildew and odour-causing bacteria.

NON CORROSIVE / NON STAINING

Suitable on all surfaces: metal, stainless steel, wood, textiles, leather, plastics, tiles and glass. Coverage up to 30m³, use additional foggers for larger spaces.

BONDS TO SURFACES / NON-STOP PROTECTION

Pure South™ Surface Sanitiser and Disinfectant Fogger bonds and coats multiple surfaces with a microscopic protective layer. On contact the electrostatically charged organo silane QUAT matrix causes bacterial cell wall lysis that effectively attracts, kills and destroys bacteria, supporting long term, bonded microbial protection.

BROAD SPECTRUM

Pure South™ Sanitiser and Disinfectant Fogger has been tested to meet or exceed EN1276 and AOAC 991.47/48/49 hard surface carrier test. Pathogens include Staphylococcus aureus, E. Coli, Pseudomonas aeruginosa, Enterococcus Hirae, Salmonella choleraesuis and Proteus vulgaris. Contains US EPA listed antimicrobials.

HUMAN FRIENDLY / ECO FRIENDLY

Convenient to use, sustainable, non-leaching, non-depleting and long lasting. Pure South contains no harsh smelling chemicals, chlorines, bleaches, carcinogenic or endocrine disruptive compounds. Note: Read aerosol product use and safety directions before use. Do not operate near naked flames, sparks or any heat source.

DIRECTIONS. Ensure surfaces are clean and dry, shake can well for 30 seconds. Place fogger upright in the centre of the room on a stable surface and activate. Close doors, windows and vents, ensure people and pets are excluded during fogging and for a minimum of 1 hour after use. After 1 hour surfaces should be dry and ready to use immediately.

USE IN VEHICLES: turn air conditioner to full fan cool, recirculate, open all vents, activate fogger upright in a stable central position. Exit the vehicle, close the doors. Wait 15 minutes before turning the air conditioner off. Allow surfaces to dry.
