Sample Itinerary*

4 Nights / 5 Day Trip

We recommend arriving in San José del Cabo the day before your trip - or earlier if you would like to spend a few days enjoying the sun! We recommend staying at the Barceló hotel in San José del Cabo. Check in the day prior to your adventure at [SeeCreatures San José](#).

Join a complimentary Whale Watch tour in search of Humpback Whales and a Backscatter photo workshop to learn how to capture that perfect shot of a grey whale! Want to extend your trip? Just ask us for suggestions on great day trips and our liveaboard journeys.

**Itinerary is subject to the vagaries of big animals, weather and mother ocean!*

Day 1 - Fly into SJD, San José del Cabo

Fly into Cabo. Transfer to your hotel or villa of choice. We recommend the 4 star beachfront Barceló hotel in San José del Cabo. Get settled and then head over to SeeCreatures to get set up for your adventure! Complimentary afternoon humpback whale watching with SeeCreatures. Optional Backscatter photo and GoPro workshop. There are some great restaurants at the hotel, across the street or wander downtown.

Day 2 - Fly to San Ignacio Lagoon

We have morning and afternoon** flights to the Lagoon with transfers from SeeCreatures and Barceló. Your choice to get up early and head straight out or have a more leisurely start and take the afternoon** flight. We will be waiting with a tray of champagne after your 2-hour flight to camp and if you want, head out right away for your first whale encounters.

Days 3-4 - San Ignacio Lagoon

Your choice of three whale encounter sessions a day (weather and park capacity control permitting), enjoy the camp, hike, walk, mountain bike, watch birds, or visit the dazzling white salt flats. Evening presentations by our naturalists.

Day 5 - Whales & Fly Back to San José

Early breakfast. One more whale encounter and then fly back to San José del Cabo. For those who were on the morning flight northbound. Arriving 12:30pm. It can be more of a leisurely start for those who flew up on the afternoon flight with at least 2 whale encounter sessions (or maybe 3!), lunch and 4pm flight back to SJD airport.

**** Afternoon flights are available when we have more than 13 guests.**

[San Ignacio Blogs](#)

NOTICE DURING COVID-19 CRISIS

Our job is to keep our guests and crew safe. Now more so than ever during the COVID-19 crisis. Please ensure you arrange for a PCR or antigen test within 7 days of boarding. We will also be providing complimentary antigen testing before boarding. This is required for your safety and that of our crew. Please note, face masks must be worn in public areas. Please bring a supply of masks and a bag in which to store them. Read our **General Safety Recommendations** [here](#).

Will I see gray whales on this trip?

Yes, you will see gray whales! You may even have the chance to physically interact with the whales as they often approach our pangas. San Ignacio Lagoon is also home to a variety of bird species including nesting ospreys and egrets.

How much whale watching is included?

We reckon that if you have travelled all the way to San Ignacio Lagoon for gray whale encounters, we should facilitate as much time with the whales as possible. We are currently averaging nine whale watching sessions each trip, with two trips on your day of arrival, three sessions on days two and three and a final session to say goodbye before you depart the camp.

One other thing to note is that a maximum of 16 pangas are allowed in the reserve at one time while there are 26 permitted pangas. This means that during a very busy peak season, each panga can stay in the reserve for 90 minutes and then needs to step back to allow another waiting panga in.

Why are we trying to touch whales? Is this bad for them?

Gray whales are normally shy and reclusive but their behavior changes when they are in the lagoon. These whales were thought of as dangerous because they fought back hard against the whalers who nearly exterminated them when they discovered the breeding and birthing lagoons in the 19th century. It was only 30 years ago that a local fisherman bravely put his hand out to touch a whale who approached his panga. Much like the misunderstood orca – or “killer whale” – it became apparent that these highly-intelligent animals in the lagoon were actively seeking out physical interaction with humans. It's entirely their choice to approach our pangas and rub up alongside to be touched and stroked. Amazingly enough, the whales will grow bored with humans after several minutes if we don't physically interact with them. It's clear to us that the whales are reaching out to us, not the other way around. It touches our hearts. It's amazing and emotional. We will never betray their trust nor allow any whale to be harassed.

Is COVID a risk to the local community of San Ignacio?

We have engaged in discussions with the local panga captains and community, and they are very much looking forward to receiving guests this year as a large portion of their annual income is dependent on ecotourism. We are dedicated to taking every possible measure to protect local community members.

What about the whales?

This is a factor still unknown to us. We are taking every precaution to protect our guests, staff, and the gray whales. We are requiring guests to be tested for COVID-19 before their trip. Extensive protocols are in place in our camp, including sanitizing hands and wearing masks while on the pangas. Guests will be able to touch the whales but we ask to refrain from kissing the whales and putting our hands inside their mouths this season.

What kind of camping accommodations can I expect?

Standard glamping tents are Weatherhaven with adjustable twin beds or one king bed. Each glamping tent has an ensuite bathroom and shower.

Large premium tents with adjustable twin beds or one king bed. Each premium tent has a spacious ensuite bathroom and shower, plus a seating area.

We have separate tents that host the dining area, bar and lounge, as well as our nightly natural history presentations.

How often can I shower?

Water is a precious commodity in the desert. We have ample water on-hand for you to take a hot shower every day but please limit it to that.

What can I do in my free time?

We have kayaks available in camp for you to take out for a paddle on the calm lagoon waters. You can take a walk to explore the pristine shoreline and tidal pools. Birders will love to check out the local avian population. Relax at camp with a book or have a cold drink at the bar.

Can I touch the whales?

Gray whales in San Ignacio are known to regularly approach our pangas to be stroked. If the whales approach, you are welcome to interact with them!

What is included in the trip price?

Comfortable, fully catered camping with provided bed linens and towels. Non-alcoholic beverages, guide service, washrooms with flushing toilets and showers, biodegradable toiletries, two to four whale watching excursions per day, battery charging station.

What is NOT included in the trip price?

Reserve and airport landing fee of \$35 USD per person, alcoholic beverages, single occupancy (25% surcharge), and if you think the service is deserving, crew gratuities - typically between \$250-300 USD per person.

Starting February 2022, the Mexican state of Baja California Sur is implementing a 350 Mx\$ (~\$17 USD) foreign tourist tax*. You might be charged at your hotel or at the airport at the time of departure. An additional 89 Mx\$ (~\$4 USD) tourism tax* will be implemented in June 2022.

**Only applies to non-residents of Mexico*

FAQs

What are the boats like? (See photo below)

The whale watching excursions take place on local “panga” style boats. They are about seven to eight meters in length and have bench seating.

What will the plane ride be like?

We charter a late model Cessna Grand Caravan 208 with 13 passenger seats, large cargo pod and leather seats and air conditioning.

Is there a maximum baggage allowance on the airplane?

The aircraft operator limits us to 10 kg of baggage per person which doesn't seem like much until you realize that you only need to bring clothes for four days of whale watching plus toiletries, camera and computer. We will happily store any suitcases or excess gear at SeeCreatures San José warehouse. We know that serious photographers or astronomers might want to bring a lot more gear. Please contact our office and we will arrange this for you.

Is there another way to get to camp or do I have to fly with you from San José del Cabo?

If you are traveling with a large group we are happy to host your group no matter which way you arrive from camp and you will save money with a self-arrival. It's a +20 hour drive plus border crossing from California or a six hour drive from Loreto. Pilots are welcome to fly in to the 4000 ft dirt airstrip close to our beach camp. Alternatively, there is an 8000 ft paved runway 2.3 hours away at Guerrero Negro with either charter flight or ground transfers to the Lagoon. The Guerrero Negro airport is tightly guarded by the military and your airplane will be happy and safe while you are in camp. Please contact our office so that we can help you plan your trip.

Can you accommodate special dietary requirements?

Yes! With 30 days notice, we can provide delicious vegetarian, vegan, and gluten free options.

What will the weather be like?

Average daily high temperatures are 20-25°C (79-86°F) with nightly lows cooling down to 8-10°C (48-52°F). Precipitation is very minimal. Plan to wear layers as you will be exposed to sun and wind on the boat, and cooler temperatures and windy conditions at night in camp.

Will it be quiet in camp or will a generator be droning away?

Our eco-experience camp is silent. But don't be fooled!! You will still be able to enjoy electrical powered luxuries from the cappuccino machine to toaster to ice machine.

What should I pack?

Comfortable clothes for camp (cotton t-shirts and long sleeve shirts, warm sweater, shorts and pants), windbreaker, waterproof pants, a warm jacket for cool nights and mornings in camp, warm sleepwear, lots of extra warm socks, tennis or hiking shoes, water friendly sandals, flashlight, reusable water bottle, insect repellent, sun hat, beanie hat, sunblock, personal medicines, and your camera! Be ready to get wet! There are no ATM's in San Ignacio so please bring all necessary cash.

Optional: Dry bags, computer or electronic devices, and binoculars.

When is the best time to go?

We only operate in peak season when large numbers of whales are present, from January through April.

What kind of insurance is required for this trip?

Due to San Ignacio's remote location, we require all guests to have current evacuation and emergency medical coverage. We recommend packages from [Dive Assure](#). If you are purchasing coverage for just this adventure, you can select “non-diving trip” for best pricing.

FAQs

How many guests will be on each boat during whale watching?

We will ensure a maximum of only seven guests per panga to provide the highest quality, most personalized experience for each visitor. This ensures you will have the best opportunities for whale interactions!

Where do we meet?

Meet at SeeCreatures San José del Cabo at 6:30am for fresh coffee and continental breakfast. We will pick you up directly from SeeCreatures at approximately 7am for the morning transfer to the airport. One additional stop at the Barceló hotel at 7:05am before the airport.

When will I return to San José del Cabo?

Your charter flight will return to San José del Cabo on day five at about 12:30pm.

Do I need a passport or visa?

All guests must have a passport valid six months from entry. Visas are required from certain countries, please check your specific requirements online.

Why do your trips leave out of San José del Cabo?

Because the shortest charter flight to the Lagoon is from San José del Cabo which is super easy to get to with service from 15 different US cities, most of Mexico and even direct flights from overseas. Because San José in the winter and spring is a really fun place to visit!! Because you won't have any border crossing hassles. And because we offer all sorts of other activities from our San José del Cabo base including swimming with whale sharks and other adventures into the Sea of Cortez, scuba diving including our Socorro giant manta liveaboard trips, Backscatter photography workshops and much more.

Do you have a hotel recommendation in San José del Cabo?

Yes, we recommend the Barceló Grand Faro Los Cabos, which is a premium level resort located along the breathtaking waters of the Sea of Cortez. It is the perfect resort for enjoying a bit of peace and quiet, thanks to its exclusive location just 0.6 miles from San José del Cabo downtown and our SeeCreatures office where you need to check in.

Can children come on this adventure?

Yes! We welcome all children over 5 years of age to our Glamping Camp.

What can I do in San José del Cabo before or after my trip?

Plenty! Take a day trip to the Sea of Cortez to snorkel with sea lions and whale sharks, or book a day dive with our SeeCreatures San José del Cabo. Extend your trip and join one of our Liveaboard Dive sailings. Or, relax by the pool and enjoy some sun at one of our partner resorts.

Is Wi-fi available in camp?

YES! There is Wi-Fi network throughout camp with four satellite connections to the internet that is complimentary to all of our guests. Please note that satellite service is not the same speed or quality connection as being in the city. It's sensitive to natural elements and weather. We've metered the speed so each guest can have access to applications such as emails, chats or web browsing. Video streaming is not compatible.

A faster connection is available for an extra cost.

What airport do I fly into?

SJD Los Cabos International for both commercial airlines and private aircraft.

When should I fly in?

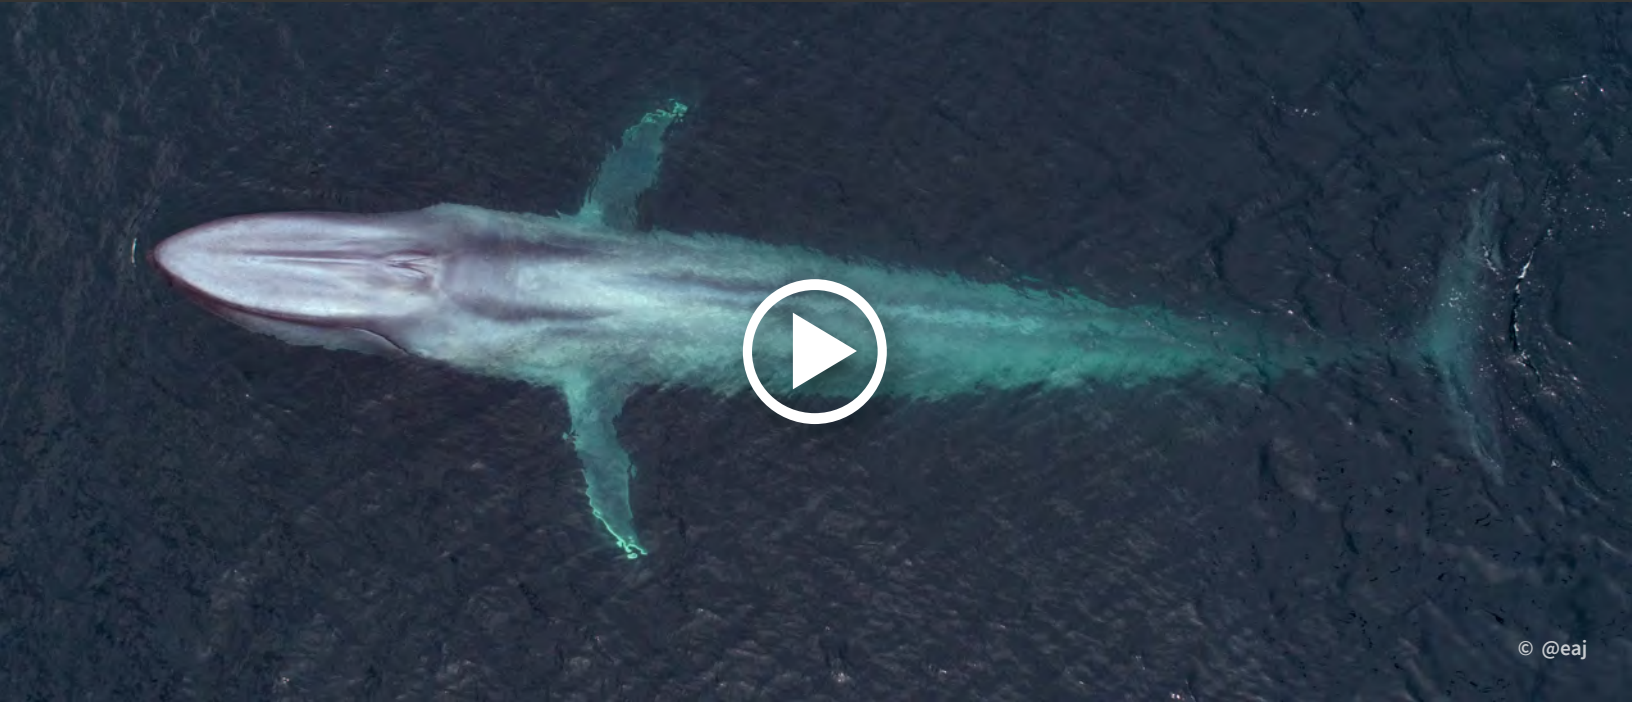

Due to our morning flight time, you should plan to arrive to San José del Cabo the day prior to your trip. We will have a complimentary whale watching trip to see humpback whales as well as a Backscatter photography workshop on offer for you to enjoy!

What happens in the case of an emergency?

Our camp operates with the same emergency preparedness and protocols as our ocean-going liveaboard ships. You can be sure that our camp will be stocked with an AED, emergency oxygen and extensive first-aid equipment and that we have "first responders" on staff. In the very unlikely event of a medical emergency, medevac flights are available to an acute care hospital in Cabo.

Extension Trip to Loreto & Mechudo Corridor

We will be offering a really cool extension from San Ignacio to see the blue whales of Loreto and explore the Mechudo Corridor. Your timing is peak season for the blue whale aggregation and dolphins south of Loreto. Plus sea lions at Los Islotes and whale sharks off Mogote.

Mid-January - Mid-March

4 Nights / 5 Days

8 People Minimum

Currently offering to groups of 8 or larger

BLUE WHALE BLOG

A Note on COVID-19

Important notice to our valued guests during the COVID-19 crisis

Our job is to keep our guests and crew safe. Now more so than ever during the COVID-19 crisis. **Please ensure you arrange for a PCR or antigen test within 7 days of boarding and bring your results with you. Do not travel if you received a positive test result. We will be providing complimentary but required antigen testing before boarding for all guests and crew on board every trip.** For more detailed information on our COVID-19 procedures and protocols, please read out COVID-19 FAQs [here](#). We look forward to welcoming you on board!

Our complimentary pre-boarding COVID testing clinic is at SeeCreatures San José in downtown San José del Cabo. **Please arrive between 12-4pm to get tested before your pre-booked complimentary humpback whale watching.** As the situation with COVID-19 evolves, we will continue to adapt and improve the measures we are taking. Our goal is to get people traveling again in a way that maximizes safety and minimizes contagion.

COVID-19 Best Practices

- **Masks are mandatory in all common areas unless seating during meal times**
- **Social distancing on whale watching pangas**
- Vital Oxide hospital grade disinfectant with seven day hold time applied with fogging machines
- An intense focus on camp sanitation. This includes staff-assisted buffet service and hand sanitizer dispensers at camp.
- Health checks
- Protocols and equipment in place if someone at camp does get sick
- **[Click here for Nautilus safe travel recommendations and requirements](#)**

We cannot promise that there won't be somebody at camp infected with the virus but we can promise that we will do our best to provide the most thoughtful, safest and healthiest possible environment. Our COVID-19 policies have been formalized within our emergency processes, our SMS safety management system, our training and accountability protocols and our daily checklists as well as in consultation with authorities. Please stay safe.

Backscatter **Zero to Hero**: Underwater Photography Courses

On any of our trips, guests can learn the secrets to getting the perfect photo with a complimentary photography workshop. Whether you have 'all the gear and no idea', or are a seasoned pro looking to hone your underwater photography skills, our knowledgeable team are dedicated to helping you reach your goals.

Underwater Photography Workshop

We also offer a one-day complete photography workshop for those who like to learn in the field. Led by our Backscatter Photography Pros, you'll learn the tricks of the trade capturing one of San José del Cabo's local dive sites, working on your own photos after the dive in our Backscatter Photography Center. These courses are tailor-made to suit your needs, ensuring you leave with the knowledge and skills required to capture the perfect underwater photo.

Zero to Hero: Backscatter One-on-One Course

Become a Photography Pro in a week with the Zero to Hero Backscatter course, the ultimate underwater photography workshop for those who are really looking to take their photography skills to the next level. Available either one-on-one or in a small group, the Zero to Hero course is a personalized photography workshop offered on our Socorro liveaboard trips.

What will I Learn?

Featuring a week of immersion training, the course will teach you:

- Photography basics (aperture, shutter speed, iso) and camera set up
- Achieving the perfect exposure
- Focus techniques
- Strobe positioning depending on the subject you want to shoot
- Image reviewing and editing on lightroom and photoshop

BACKSCATTER
UNDERWATER VIDEO & PHOTO

PASSENGER GUEST WAIVER, RELEASE AND INDEMNITY (the “Waiver”)

In consideration of you allowing me to participate in your camping and/or whale watching and/or excursion (the “Excursion”):

I voluntarily waive, release and forever discharge NAUTILUS DIVE ADVENTURES AND/OR BAJA EXPEDITIONS AND/OR all its related entities: ICARUS AVIATION LTD also doing business as “Lever Diving” AND/OR NAUTILUS EXPLORER MÉXICO, S. DE R.L. DE C.V. AND/OR SEE CREATURES AND/OR CABO DIVECENTRE, S. DE R.L. DE C.V. AND/OR BSK, S.A. DE C.V. (collectively the “Company”) and its employees, directors, officers, agents and contractors (collectively the “Operators”) from any and all liability, including but not limited to liability arising from the negligence (including gross negligence) or fault of the Operators or any of them for personal injury or death, property loss or damage or any other claims of any kind which may occur to me during or in connection with the Excursion and/or the use or misuse of any equipment, vessels or vehicles.

I agree that all agreements made between the Operators and myself (including this Waiver) shall be governed by the laws of Canada and the courts of British Columbia shall have exclusive jurisdiction over any matter relating to the said agreements or this Waiver.

I agree that this Waiver shall be binding upon my heirs, executors, administrators, successors, assigns and my estate and I agree that in the event that a claim is made against the Operators or any one of them in respect of any cause of action relating to me, I will indemnify the Operator(s) for their losses, damage and expenses arising from such claim.

I confirm that I have both read and fully understood the description of the risks involved in participating in the Excursion as set forth in the Company’s disclosure information entitled “DIVING EXCURSION RISKS” published on the Company web site (<https://nautilusliveaboards.com/diving-excursion-risks/>) and in the pre-trip information package provided to me.

I also confirm that I:

- (a) am physically fit; without any health related reasons that would otherwise preclude my;
- (b) have had sufficient instruction, preparation and/or training for; and
- (c) have not been advised by any medical professional to avoid participation in the Excursion.

Finally, I confirm that I read and fully understood this Waiver before signing and, that I had the opportunity to do so before making any commitment of whatsoever kind or nature to the Company.

Please note that you will be required to sign this waiver form upon the check in and reception procedure.

Responsibilities

Our Responsibilities

- To ensure your safety.
- To give you the best possible experience.
- To treat you with respect and consideration and to provide excellence in service.
- To be responsive to special requests and needs.
- To plan each trip with respect to weather, sea conditions and animal behavior in order to maximize your experience.

Your Responsibilities

1. Animals

We love Mother Ocean! Unfortunately, sometimes guests will demonstrate unsafe or irresponsible behavior towards animals that impedes other guests' experiences and/or may cause harm to the animals. It is your responsibility to follow the staff's directions and recommendations with respect to interaction with the animals. In the unlikely event that an individual is impeding other guests and/or causing harm to the animals, the camp manager will speak to that person and give them a formal warning. If the guest continues the same behavior, the camp manager has the authority to hold that guest off the water for the remainder of the trip.

2. Alcohol

With over 30 years of operational experience running dive charters, we have learned the safest alcohol policy is to restrict guests from bringing their own alcohol to the campsite. We provide a wide selection of beer, wine and alcohol at our bar at reasonable prices. We are also happy to hold your duty-free purchases or local purchases of alcohol in bond with your luggage in San José del Cabo until the end of your trip.

3. Government Rules

You must comply with all Mexican government rules and regulations. Please note that government regulations and laws may change without notice. Our contract with you is subject to "force majeure" without compensation.

4. Marijuana

Marijuana is illegal in Mexico including medicinal prescription marijuana. We have a zero tolerance policy regarding guests bringing marijuana to our camp.

5. Illegal Substances

We maintain a zero tolerance for illegal narcotics or substances. We're required under Mexican law to report any problems to the Mexican Federal Police.

6. Staff

Treating our staff with courtesy and respect.

7. Getting Sick

We sincerely hope that you stay healthy and don't get sick during your trip. Please let the crew know if you are not feeling well so that we can give you extra love and attention and also do our best to prevent anyone else in camp from getting sick.

CAMERA RENTAL - SAMPLE PRICING

Go-pro Camera	US\$99
TG-6	US\$185

** Clients are responsible for the cost of repairing any damage except normal wear and tear.*

A Note on Gratuities

© Scott Davis

I hope we leave you with the feeling that our staff served you with warmth, good cheer, and did their very best for you. I am very proud of our hard-working and dedicated staff.

Gratuities are a cultural oddity and vary in different parts of the world. In North America it is customary and expected to leave a gratuity if you think the service is very good to exceptional - we sincerely hope that you experienced exceptional service during your trip! We realize that tipping can be offensive in some parts of the world. In Mexico and the USA, it's considered offensive to not leave a tip if the service is deserving. Gratuities are a very personal matter. For your guidance, most guests leave between US\$250 to \$350. Whatever you leave will be most appreciated by the staff.

On a personal note, I am always appreciative of any comments or feedback about your experience onboard or things that we can improve on. Comments can be made in confidence from any personal device on the camp's Wi-Fi at <http://NautilusExperience/nautilus> or if you prefer, mikelever@nautilusdive.com.

Thank you very much for trusting us with your vacation!

Sincerely,

A handwritten signature in black ink that reads "Mike Lever".

Captain Mike
Founder
Nautilus Dive Adventures

Customs and Cameras

Unfortunately, we have received recent reports of isolated incidents where guests have been charged taxes for bringing their camera housings into Mexico. This is a transgression of your rights as an international passenger and a violation of both Mexican and international law. The company is investigating this, and in the meantime, we would like to provide you with this information to help improve your experience at Mexican customs.

As an international passenger, you are entitled to bring without paying taxes, two cameras or video recording devices, and their accessories. An underwater housing unit is a camera accessory which fits your camera and allows control and usage of the device while diving. As the housing can only be functional when used with your camera, it should be considered a part of your “two cameras with their accessories” luggage allowance.

What should I do if the customs agents are trying to tax me for my housing?

1. Do not worry about your camera housing if you have not been approached by a customs agent or officer about it.
2. Bring documentation for the camera and housing. (examples: manuals, receipts, technical information, etc.)
3. You are entitled to ask for information and for a transcription of your rights as an international passenger.
4. If you encounter a customs officer who does not consider your camera housing an accessory, remain calm and try to explain to the customs officer that your camera housing is merely an accessory, and therefore tax free under Mexican Customs Law. Provide your devices' documentations and manuals.
5. Ask the custom agent or officer to please provide written explanation of the classification method used to classify your housing as something different than your camera's accessory.
6. If you are not successful, you may ask to please speak to a supervisor.
7. If you feel your rights are being violated, you are entitled to file a complaint against the officer on site, just ask to be referred to someone within the Public Function Office (Secretaría de la Función Pública). We strongly recommend you remain calm and speak to Mexican authorities with respect.
8. If your attempts have been unsuccessful and you are asked to pay taxes, ask the officer in charge to please print a detailed account of the taxes you will be paying and the classification method they used to classify the goods that are being taxed.
9. Pay under protest - when paying, ask the cashier and customs officer to acknowledge in writing that you have paid under protest.
10. Contact guest services, we will do our best to assist you and try to resolve the inconvenience.

Please follow this link to print our Spanish document to present to the Customs Officials - for use ONLY in the event of issues pertaining to your camera housing at Mexico Customs. Please note that the letter is specific to camera housings and will not be relevant to any other items brought through customs.

We hope the provided information helps you in your upcoming trip. Please feel free to contact us for additional information. Safe travels.
