

Your all-in-one control center for tailoring your experience.

Bandwidth Test Bandwidth Test allows you to run a speed test straight from your router.

Network Map

Network Map shows you connected devices and which access point they are connected to.

Security

gives you details of potential threats and viruses that have been blocked or detected. (Future Release)

My Network 🗊 Networks Equipment Services Usage OA (Primary) () Online SHORTCUTS (\circ) (:¢:) $\uparrow \overline{\underline{\underline{}}}$ Priorities Bandwidth Network Security Test Map ()Default Restrictions කු ငိုလို G Ŧ 俞 \bigcirc

↑ ■ Allows certain devices to have priority over internet service.
(Future Release)

Default Restrictions allows you to set parental Restrictions controls or block use of specific applications and websites.

(Future Release)

The bandwidth test shows result for router and any mesh units you have. The Network Map shows devices connected and to what access point they are connected to.
