

As the owner or manager of \_\_\_\_\_ (name of business), I am officially participating in the **The Last Plastic Straw** movement as part of an effort to keep my community pollution free and stop plastic pollution at the source.

As a plastic straw free business, we will feature you on our list of participating businesses on **The Last Plastic Straw Website**, linking your business to a global movement, share on social media, and promoting you as green business leader in your community!

As a participating business I vow to: (please check all that apply)

- Print on menu **“Straws Available Upon Request”**  
*and only provide straws upon customer’s request.*
- Discontinue the use and purchase of plastic straws.**  
Offer a fully compostable (paper)\* or reusable option to plastic straws.  
OR get rid of straws completely.

**\* Note: “Bio Plastics” are not compostable, nor recyclable in most areas. Bio plastics require a commercial high heat composting facility, and will not break down in a landfill. Check with your local Waste Management agency.**

Signed,
