

RECYCLE YOUR STRINGS!

The SIUE Suzuki Program is now a D'Addario Playback String Recycling Center, joining a global movement to reduce waste and keep our world healthy, clean, and green!

FACT: 1.5 million strings end up in the landfill every year in the U.S. Since its launch in 2016, the Playback program, in partnership with Terracycle®, has recycled 3.5 million.

Recycle your strings at the SIUE Suzuki Office.

Nylon or metal strings accepted from all string instruments – guitar, violin, cello, piano, ukulele, etc.
