Please list work completed by J&E Remodel and Repair and describe your overall experience:

Bid for total job: \$890

Contractor began on time and finished on time.

The scope of work: a remodel of master bath vanity; including removal of 10' long mirror, dry wall, replace faucets, hang new towel racks. Subcontractors included Lampost Electric (to install wall lights and additional electrical outlets, and Christensen Drywall to finish plaster to match existing walls)

Mr. Yoder protected all flooring around and to/from work site, and kept the work site clean. He paid attention to details, so he was clearly thinking through the project. The work done here was very straight forward, but it made me believe Mr. Yoder would be competent and able to deal with a more complex job.

I hereby affirm the above is a true and correct account of my experience having J&E Remodel and Repair complete the described work in my home. This letter serves as my formal referral and recommendation of J&E Remodel and Repair and Jason Yoder.
