Please list work completed by J&E Remodel and Repair and describe your overall experience:

Jason removed the fluorescent lighting in my kitchen ceiling and installed 5 LED lights. He also replaced the ceiling fan in the kitchen.

My experience with J+E was excellent. Jason was always on time. His work was neat and the end result was great. There was just about no disruption to my daily life.

This was a top notch experience in remodelling!

I hereby affirm the above is a true and correct account of my experience having J&E Remodel and Repair complete the described work in my home. This letter serves as my formal referral and recommendation of J&E Remodel and Repair and Jason Yoder.
