

Tired of the stacks of paper, invoice errors, and long hours spent entering data manually? [Vendor Invoice Hub](#) is the solution purpose built specifically for retailers.

We simplify vendor invoice management by transforming vendor-supplied files into clean, digital records ready for import into your existing systems — eliminating the hassle of manual invoice entry.

OUR SOLUTION

•Processing

We collect invoices DIRECT from vendors via email, FTP, and Portal downloads. No scanning or data entry required.

•Automation

Using advanced AI coding, we extract and process line item detail from invoices

•Integration

We export files compatible with most backoffice and accounting software including PDI and Quickbooks. We will customize output to meet your requirements.

•Information

See every vendor invoice in one real-time dashboard. Easily export purchases across all vendors.

•Cost and Time Savings

Reduce time and effort at store and office level
