Dear Mailbox Customer,

Starting June, 1st 2024

To be fair to both our customers and ourselves. And to not have to raise our rates across the board, we decided to use the check-in and storage method to compensate for overages in both areas.

Although this is a change, the vast majority of you already pick up your packages in a timely manner and will not be impacted by this at all.

We understand unforeseen circumstances can arise and we will work with you should you be unable to make it here in time. Just give us a call and we'll work it out with you.
