

## MW 11-30

111 RM

Also Available As:  
SmartStax RIB

### KEY CHARACTERISTICS

- High yield response to management
- Better performance as fuller season hybrid
- Excels in the western corn belt
- Average drought with good heat tolerance
- Responds to higher population for environment

### COMPETITIVE ANALYSIS

### NOTES:

## THIS HYBRID'S STORY

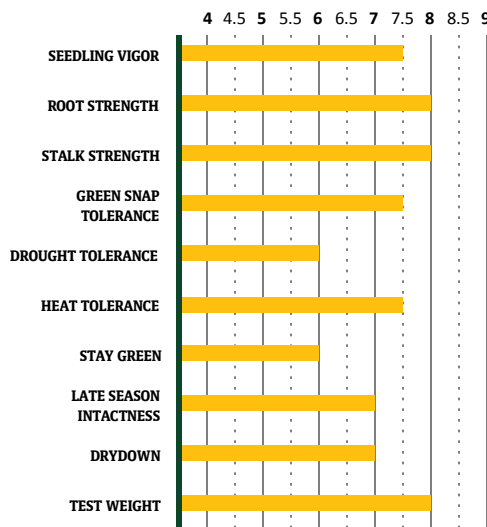

Yield king in maturity window. Above average to offensive placement, with high response to management, nitrogen levels, seeding rate and fungicide. Very good emergence, early season vigor, and quick into canopy. Is a semi-flex ear with a blocky, girthy appearance. Moderate plant height with lower risk of greensnap and very good tolerance to Goss' Wilt providing western movement. Will move fast once at maturity and give good drydown. Place on your highly productive acres and let her run.

\*Ratings based on 1-9 scale, with 9 being the best.  
N/A = Not Available

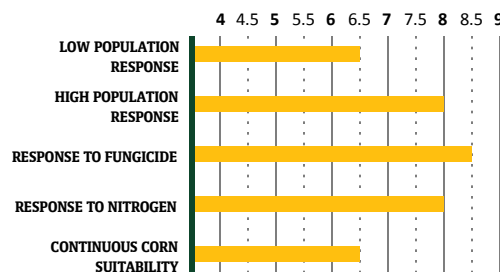

### PLANT CHARACTERISTICS

GDU TO BLACK LAYER	N/A
EAR FLEX	Semi-Flex
PLANT HEIGHT	Medium
EAR HEIGHT	Moderate

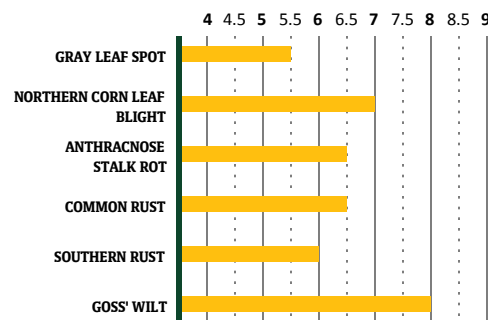

### AGRONOMIC CHARACTERISTICS

### CORN MANAGEMENT

### DISEASE TOLERANCE

### HERBICIDE SENSITIVITY

PLANT GROWTH REGULATORS	Average
SULFONYLUREAS/ALS INHIBITORS	Above Average
HPPD INHIBITORS	Above Average
