16. INDIVIDUALS LOCATED WITHIN THE UNITED KINGDOM.

A. Restricted Transfers: Our Company may make a restricted transfer if the receiver is located in a third country or territory or is an international organization, covered by UK "adequacy regulations." If there are no adequate regulations about the country, territory or sector for the restricted transfer, our Company should then find out whether you can make the transfer subject to 'appropriate safeguards' as listed in the UK GDPR. Before we rely on an appropriate safeguard to make a restricted transfer, we must be satisfied that the data subjects of the transferred data continue to have a level of protection essentially equivalent to that under the UK data protection regime. We do this by undertaking a risk assessment, which takes into account the protections contained in that appropriate safeguard and the legal framework of the destination country (including laws governing public authority access to the data). If our assessment is that the appropriate safeguard does not provide the required level of protection, we will include additional measures. Appropriate safeguards may be: (1) A legally binding and enforceable instrument between public authorities or bodies; (2) binding corporate rules as defined in Article 47 of the UK GDPR; (3) a contract incorporating standard data protection clauses recognized or issued in accordance with the UK data protection regime; (4) a code of conduct approved by the ICO; (4) Certification under an approved certification scheme; (5) a bespoke contract governing a specific restricted transfer which has been individually authorized by the ICO; or (6) Administrative arrangements between public authorities or bodies. If none of the criteria above apply for the transfer, we may still make the transfer if the transfer is covered by an 'exception' set out in Article 49 of the UK GDPR.

- B. CHILDREN UNDER THE AGE OF 13: All website users located in the United Kingdom must be at least 13 years of age. If we learn we have received information from a child under 13 we will delete the information. If you have reason to believe that a child under the age of 13 located in the United Kingdom has provided Personal Data to us through the Website or Services, please contact us and we will endeavor to delete the information from our database. If we learn a user is under 13 years of age, we will not disclose any personal information to any third parties unless the user has given opt-in consent. If you have reason to believe that a user is under 13 years of age, notify the Company in order to prevent disclosure of any personal data without opt-in consent.

- C. Local Representative in United Kingdom: We do not either offer goods or services to individuals in the UK; or monitor the behavior of individuals in the UK.
