

Fall Pond Service

“2024 Early Booking Special”

by October 15th

This fall we will be offering three pond services. One, we will offer a Full Pond-Cleanout for customers that missed our Spring-Cleaning service or want to have the pond clean going into winter, which is recommended. Second, we are offering our Standard Pond Closing service that prepares your pond for the winter months. Lastly, we are offering a Pond Tenting service to help customers keep the leaves out of their ponds.

1. **Gold Clean-Out** – Drain, clean and power wash the entire pond. Remove fish to our holding tanks, clean all pumps, filters and skimmers. Return fish to pond. Cut back plants. Cover Pond with net. *
2. **Silver Pond Closing** – Partial water change, clean bio-falls and skimmers, net debris from pond, service pump, cut back plants and cover pond with net. (Note: Net provided at an extra cost)
3. **Pond Tenting** – Create and cover pond with a tented net to keep leaves off the water, which allows you to enjoy your pond for several additional weeks. This service includes PVC frame, Net, Stakes and Grommets.

All Fall pond services are performed between late September and Early December.

We will contact you and let you know your approximate service date. Please note:

We are happy to close your pond after December 13th,
but this service will include a \$149 late season service charge.

Please sign and return before October 15th with full payment to receive the Early Booking Discount
