

## First Visit

The welcoming ambiance at Dental Care Group will let you know the moment you walk through our doors that we are a different type of dental practice. We are all about our patients, offering them comfort and excellent services. As a new patient at Dental Care Group, you will appreciate our on-time scheduling; you will not have the experience of long waits before being seen for your appointment. We are mindful of your time, and also make it easy for you to check in and check out quickly.

Our staff is always available to help answer any questions you may have about forms or procedures. We enjoy going the extra distance to ensure that your time spent with us is as comfortable as possible. We strive to meet your needs for an exemplary dental visit.

## During Your Appointment

Your first visit will provide us the opportunity to establish a baseline for your dental care. You can expect to meet our dentist, in return will provide you with information about the condition and future care of your mouth. Our goal with each appointment is to help you acquire or maintain your best oral health.

Your initial exam will include digital x-rays, which are more comfortable and safer than traditional radiographs. They also provide us with immediate feedback on the condition of your teeth and jaws. Your teeth will be examined and measurements will be taken of your gums to determine your risk for gum disease. This will also determine the type of cleaning that will best suit your situation.

When this stage is completed, the dentist will go over the report, do another check and discuss the findings with you. There will be time for you to ask questions and discuss any concerns you may have about your dental health.
