Welcome to the *Magelord* Characters Guide. Within, you will find a whimsical yet thoughtful depiction of all of the colorful main characters of the novel, *Magelord*. You will also find many new and interesting details about each of them, along with a personal quote. Some of these quotes may be found in the book, but most are new and not available anywhere else. Each character depicted is a close representation of the person I had in mind when I wrote *Magelord*—but by no means a perfect one. Several, you will notice, may even seem to be familiar, but any resemblance to actual persons, living or dead is, as they say, purely coincidental.

It should be noted that the details of those that follow are all stated in relation to when we first meet them in the story.

I sincerely hope you enjoy this supplemental foray into the world of *Magelord*.
