

PREVENTATIVE MAINTENANCE PLAN

LAKE NORMAN MECHANICAL, INC
FAMILY OWNED & OPERATED SINCE 2004

704.289.8890

Why do I need it?

Preventative maintenance is an ideal way to keep your furnace and air conditioner running smoothly all season long. Think of your furnace and A/C as a car- routine maintenance can help extend their life expectancy and potentially avoid emergency breakdowns, saving you costly repairs.

What's Included

- **(2) Residential HVAC Maintenance Visits Per Year**
 - 1 in the Spring to clean and check your furnace and
 - 1 in the Fall to clean and check your A/C
- **20% off select parts**
- **Priority over non plan members**
- **Only pay \$50 service call charge on emergency calls**
 - not including parts
- **No long-term contracts**

Plan is for (1) Furnace and (1) A/C. Additional charges apply for additional units.

Benefits

Lower Energy Bills

Performing regular maintenance can help lower energy bills. Your energy bills will be more consistent when your system is running smoothly.

Lower Risk of Breakdowns

Regular maintenance helps catch small issues before they become big, costly issues.

Improve Air Quality

Regularly changing filters and cleaning your system will improve the air quality in your home.

Extend System's Lifespan

HVAC systems have to be replaced eventually but by having regular maintenance done you could put off that cost for a few more years.
