

**FOR IMMEDIATE RELEASE**

**Allen Brooks Announces Free Release of All Seven 2025 Singles**

**A Year of Creativity, Film Festival Wins, and Global Gratitude**

Kansas City, MO - Independent musician and visual storyteller **Allen Brooks** has announced that all seven of his 2025 music releases are now available as **free MP3 downloads**, exclusively on AllenBrooks.net. This gesture comes at the end of a milestone year marked by nonstop creative output, new collaborations, award-winning music videos, and an ever-growing global audience.

**"2025 has been the most creatively intense and fulfilling year of my life,"** Brooks says. *"Seven releases in one year pushed me artistically, mentally, and emotionally. Giving them away for free is my way of saying thank you to everyone who supported me, watched the videos, shared the songs, and believed in what I'm doing."*

---

## A Year of Seven Releases

Across 2025, Brooks crafted and released a diverse lineup of singles, each with its own sonic and visual identity:

- **Mirrors In My Mind** – A surreal, psychedelic dive into fractured consciousness and emotional rebirth.
- **Caviar and Cigarettes** – A neon-glam, post-apocalyptic fever dream blending grit, indulgence, and outlaw swagger.
- **Tragically Twisted** – A high-voltage punkabilly blast featuring guitarist **Keith Maples**, built to hit like a vertical rock opera.

- **Blue Moanin'** – A blues-drenched, emotionally raw performance blending vintage soul with modern grit.
- **People Can Change** – A heartfelt, hopeful reminder that transformation is possible at any stage of life.
- **Raymond Redd** – A cinematic, character-driven track inspired by folklore and smoky Americana storytelling.
- **Changes** – A stripped-down, emotional acoustic reinterpretation of the Black Sabbath classic.

Each track was produced independently and paired with a visually ambitious music video, using a mix of 2D animation, AI-augmented artwork, hand-crafted concepts, and Brooks' signature surreal storytelling.

---

## Award-Winning Visuals

This year also saw Brooks' filmmaking recognized on an international stage, earning **two major film festival wins** for his animated and AI-hybrid music videos. These awards celebrate not just the music, but the bold visual worlds Brooks creates, blending narrative, symbolism, animation, and musical energy to build experiences that resonate across mediums.

*"Those festival wins meant the world to me," Brooks reflects. "They validated the risks I took experimenting with animation, pushing AI creatively, and crafting stories that don't look or feel like anything else."*

---

## A Thank-You to the Listeners

Offering all seven singles for free is more than a promotion, it's a personal gesture.

*"No sign-ups. No subscriptions. Nothing behind a paywall," Brooks says. "Just music. Just gratitude. If someone connects with even one song, then it was worth creating them."*

Brooks credits his listeners, viewers, and supporters for fueling his artistic momentum throughout 2025:

*"Every message, every share, every view, every person who took three minutes out of their day to listen, you kept me going. This is my thank-you. This is me sending out some international love."*
