Allen Brooks — Caviar and Cigarettes

Allen Brooks releases a new dark and edgy song titled 'Caviar and Cigarettes'

ABOUT THE RELEASE

Kansas City, Missouri songwriter and lifelong musician Allen Brooks has unveiled his latest single, "Caviar and Cigarettes", now available on all digital streaming platforms. The track delivers a nostalgic rock sound that blends the brooding tones of The Cure with the raw grit of Nirvana and Alice in Chains.

Opening with a dark, infectious hook, the song immediately captures the listener before descending deeper as the drums kick in. Brooks' powerful vocals carry the track with a haunting energy, evoking both reflection and intensity. The result is a song that feels timeless and rooted in the past yet resonating with a modern edge.

Brooks, who grew up in Grandview, Missouri, describes his music as spontaneous and inspired by everything around him. A child of the 60s and 70s and a live performer since the 80s, Brooks channels decades of musical influence into his songwriting. On "Caviar and Cigarettes", he collaborated with international talent, including Argentine drummer

Mariano Vega and Italy-based engineer/co-producer Andrew Caccese. This global approach underscores Brooks' commitment to crafting music that is both personal and universally relatable.

As Allen puts it best:

"Hold on to what you believe in and your dreams will always come true!"
