

Implants

Coverage for preferred treatment option

Implants are becoming a preferred treatment option to help preserve bone structure and replace unhealthy teeth.

Several million people now have implants, and the number of people choosing this treatment option is growing every year.

Humana covers all implant prosthodontics, such as crowns and dentures, when supported by an implant with no need for a benefit rider.

For placement of an implant and enhanced prosthodontic coverage, a rider is available.

Our implant benefit is easy to use with no special claim forms, network access to specialists, and integrated deductibles and annual maximums.
