

ENTERTAINMENT PACKAGES & PRICING

2027-2028 Season

MEET YOUR DJ/MC

DJ Erik is a master of the mix with music that entertains guests of all ages. He brings a calm and down-to-earth presence based on his years of experience producing and DJing important events.

~Good times and good vibes go hand in hand!~

Since 2012, Erik and his skilled team have delivered entertainment for venues of all sizes, offering everything from classic wedding packages, to premium audio and custom lighting shows, or fun add-ons like photo-booth with instant photo prints.

There are many great DJs and companies out there. **Erik and his team will bring the same level of service and professionalism as any premier events service company.** Unlike large companies with dozens of DJs on the roster, you will meet Erik day one and he will be there for you every step of the way.

*He brought the reception to such life and we enjoyed every minute of it. He's the **absolute best**, and we would recommend his service to anyone looking for a gifted DJ.*

KIND WORDS

Erik was possibly the most integral part of our party without being overbearing or drawing too much attention to himself, which is a delicate balance but he nailed it. We were **looking for a DJ who would be able to start and keep the party going for our multi-generational guest list**, but who would also bring a chill vibe behind the booth. Erik was **professional and respectful while also slaying his set list** and keeping our friends and family on their feet for over 2 hours. We have had multiple friends and family members comment on how great the music and the DJ were, which I think speaks for itself. **Highly, highly recommend Erik!**

THE EXPERIENCE

Celebrate Together!

From the first call, the entire process centers on your wants and needs. Everything from the playlist to the preparation is handled with attention to detail. Ceremony to dancefloor, guests love to hear their songs presented with pristine sound clarity, while dancing the night away through decades of classics and modern hits.

Erik is a versatile performer who can be the energetic front man, or hang back and let the music tell the story. He started a professional career as an all-vinyl record DJ, where he played for major events, bars, and clubs across New York, New Jersey, and San Francisco. After completing an intensive training with one of the top wedding events companies in New Jersey, the industry took off and he never looked back!

Have a playlist or do-not-playlist? Great. Want to accept requests, or no requests at all? Great. This is all about your dream for the perfect day.

PLAYLISTS

You get the music you want. Period.

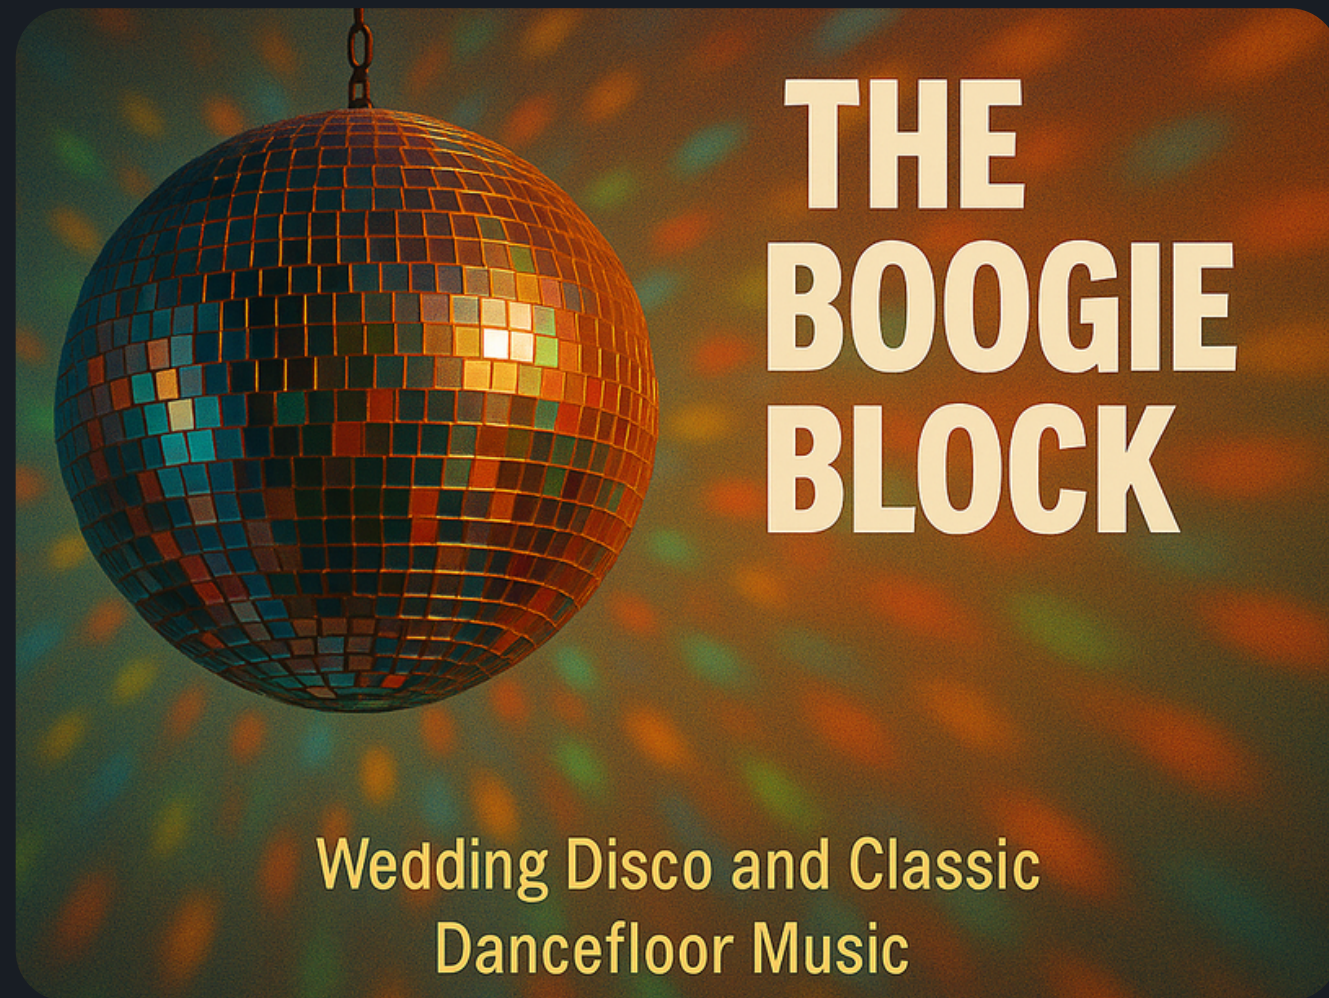

We offer every form of musical planning and support. This can range from a small do-not-playlist all the way to a completely pre-planned set designed by you - and anything in between.

We import your favorites right
from any major streaming service

Simply send us a link to your favorite playlists, artists, or songs. We will import them right to our DJ software. At the venue, we log on to the WiFi network and play right from streaming. Our special skill in mixing will soundtrack the night perfectly whether its your music, our music, or both.
