

NORTHSTAR, Lake Tahoe, CA

Feb 1-8, 2025

Saturday to Saturday

NORTHSTAR Resort is somewhat northwest of Lake Tahoe which can be seen from select points on Mt. Pluto, the peak of the resort.

The ski area is 3170 acres, 20 lifts, 350 inches snowfall/year, 100 trails, 13% Green, 60% Blue, 27% Black.

The Northstar Village has a small footprint because all the buildings are 4 or 5 stories tall with the upper levels being residential. The condos are all modern, well appointed/equipped, and many have balconies. We will be lodged in several buildings all very close together and all within a 3 minute walk to the main gondola, some literally across the pedestrian walkway from the gondola. All have an elevator, and ski lockers on the ground floor. Mostly we have 2 bedrooms, some 3 bedrooms, and one 4 bedroom. We have a one bedroom but it is much more expensive than the other choices. No "kiddie" rooms - the bedrooms with two twin beds are small, but sized for ADULTS! The number of single pillow beds is limited to 24 so get your trip apps in early if you do not want a bed-mate.

You will be sleeping at 6354 feet and the top of the mountain is 8616 feet, so minimal altitude issues.

All of the mountain is below the tree line so lots of tree glades to ski and lots of
