Five Peaks. One Incredible Mountain

What would the perfect mountain town be without its mountain? Boasting 5 peaks, 2,908 ski-able acres, 187 trails, four terrain parks and the tallest chairlift in North America, Breckenridge Ski Resort offers unforgettable skiing and riding for all ability levels. Considered by many to be one of the best ski resorts in Colorado, Breckenridge combines unique character with unmatched terrain and impeccable service to stand out from the rest.

Base Elevation: 9,600 feet

Peak Elevation: 12,998 feet

On a stroll through town, Breckenridge's mining heritage comes to life in the storybook architecture and the Victorian flair that is truly one-of-a-kind. Shops, outfitters, soda fountains, galleries, cafes and restaurants line the sidewalks. It's a rainbow of colorful things to see and do for skiers and non-skiers alike.
