The countryside on both banks of the Moselle is splendid, the cool wines taste deliciously, the picturesque little towns have rich histories and the conditions for cycling are excellent indeed. You follow the river Moselle, partly in Germany, partly in France and partly in Luxembourg, along the endless vineyards and the enchanting old cities like Cochem and Bernkastel. It goes without saying that you can taste the local wine as often as you like. Then, of course, there is Trier, once an imperial Roman city. You will see the remnants of this glorious past in Germany's oldest cathedral, amphitheater, the emperor's throne hall and famous "black gate," the remains of the ancient city wall. After Trier you will follow the river Saar to visit charming Saarburg, with the stunning waterfalls in the city center. Then onto Luxembourg, the only Grand Duchy in Europe. It's strategic position between two super powers (France and Germany) made it a contested area to control over the ages. The last day you cycle in France with her welcoming villages, where the inhabitants are proud of their sweet, smooth wines and golden "Mirabellen" liqueur. The tour end in the city of Metz, with her splendid Gothic cathedral.
