### Whitefish Mountain Resort

is in northern Montana, 60 miles south of the Canadian border and 19 miles from the Glacier International Airport (FCA). The flight schedule will most likely have three legs (we are working on a two-legged itinerary), but the bus ride will be very short AND, the resort will pick up your luggage at the airport then transport it to your room, while our bus will stop at the grocery/liquor store en-route to our lodging.

360 degrees of skiing overlooking Glacier National Park, 3000 acres, 105 marked runs with 300" of snow annually, 14 lifts including 3 high speed quads, twice daily mountain tours.

Those sensitive to altitude note that the top of the mountain is **6817** feet with 2,353 feet of vertical. 12% beginner / 40% intermediate / 42% advanced / 6% expert 7 restaurants, 4 accessible by skiing. You will be sleeping at 4750 feet.

We will be staying at the Morning Eagle Complex which is the most deluxe condo lodging on the mountain. There are no dinky "kiddie" bedrooms here! Ski-in/ski-out access, central location to restaurants and bars, private ski lockers, elevator, and a shared hot tub. Each condo comes with a full kitchen, living room, fire place, balcony with BBQ, private laundry, and

an equal number of bedrooms and bathrooms. Three restaurants are within 150 feet. The ski/board equipment rental shop is in the ground floor.

Whitefish Mountain Resort is located just 7 miles from the town of Whitefish. The resort offers a variety of restaurant and bar options and is a wonderful location to stay. There is a free SNOW Bus that runs between town and resort 20 times daily which makes it easy to go to town for dinner, shopping, and at night after skiing. The town of Whitefish offers exceptional dining options, great shopping, and a lively night life. Whitefish is not a typical Rocky Mountain tourist town!

Whitefish is surrounded by endless activity options from exploring the great town of Whitefish to spending a day in Glacier National Park. Here are some examples of additional activities this winter
