	This product has not been sterilised
	Single use, do not reuse
	KEEP DRY
	Store between 15-25°C temperature.
	This item is a Medical Device.
	Reference number of the device. This code is used for those wishing to order more.
	The manufacturing LOT number of the product. This ensures traceability in the manufacturing process.
	Product manufacturer address
	Do not use the product if the box is damaged.

Product Details:

Dimensions: 130mm x 105mm x 2mm

Dimensions erected: 50mm x 50mm x 90mm

Capacity: 90ml (+/-5%)

Sterile: No

CE Certificated: No

Pack Details:

Units Per Pack: 1,000

Pack Dimensions: 450mm x 220mm x 260mm

Pack Weight: 7.00kg

Medical Transportation Devices Secure P-Pod.

Easy to use one of its kind tamper proof urine collection device, enabling easy sample collection.

The Secure P-Pod offers a convenient and user-friendly solution for collecting and transporting urine samples. Designed with both efficiency and security in mind, this device is ideal for a variety of applications, including:

Home Testing: Perfect for collecting samples for at-home health tests.

Routine Clinical Use: Simplifies urine collection in doctor's offices and clinics.

Workplace Health Programs: Provides a reliable option for on-site sample collection.

Features:

Sustainable Solutions: We prioritise eco-friendly materials and designs, minimising your environmental footprint.

Comfortable Design: The ergonomic design ensures user comfort during sample collection.

Easy Sample Transfer: The device allows for effortless transfer of the collected urine into a standard urine vial for transportation.

Tamper-Evident Option (For Sealed Device):

Our tamper-evident collection device features a unique seal that provides clear visual confirmation if the sample has been compromised. This added layer of security is ideal for situations requiring the utmost confidence in collection/sample integrity.

The Secure P-Pod by MTD is a one of its kind transportation device for simple sample collecting. The security strip along the top edge ensures a tamper proof single use device. Simply tear off the security strip, push in the edges and the container is ready for sample collection. Easy to hold side wings enable ease of use for both male and female users. Supplied flat this saves not only space but also money during storage and distribution. The Eco-friendly device is fully compostable. All elements responsibly sourced offering no damage to the environment.
