

# Switchboard Upgrades

**Mandatory switchboard upgrades are required for non-compliant switchboards at rental properties from 29 March 2023.**

## Switchboard upgrade requirements

From 29 March 2023, rental properties are required to have all their power outlets and lighting circuits connected to a switchboard type circuit breaker and a residual current device in accordance with the relevant Australian Standards. Our standard upgrades include:

- ✓ Removal of old switchboard
- ✓ Upgrade of circuits to safety switches
- ✓ Installation of main earth conductor where required
- ✓ Qualified inspector sign off
- ✓ Electrical certificate

**Fixed pricing for standard switchboards available.**
