Corpus Christi Regional Transportation Authority Selects Sec-Ops, Inc. for security officer services contract in Corpus Christi, TX.

Corpus Christi, Texas—June 4th, 2019— The CCRTA security team evaluated the proposals submitted by five security companies and recommended Sec-Ops based on our proven performance, quality of service and capabilities to provide the armed and unarmed security personnel required to meet the security mission. The Sec-Ops proposal represented the best value for the county with an immediate mobilization capability. The RTA board approved the recommendation and unanimously voted to contract with Sec-Ops for a five year contract. The Sec-Ops team of experienced guard force personnel met with the RTA Security Director for security briefing on 18 June and we will commence services on 27 June 2019 supporting the security mission of the Staples Street Center and Bear Lane complexes.

Sec-Ops was ranked number 1 out of five proposals in a best value award which included a review of past performance, on-going training capability, management team's experience in dealing with Government contracting. Sec-Ops was not the cheapest but was evaluated highest based on best value principals. Sec-Ops is proud to respond to the RTA's RFP as we are excited to become a valued team member of their robust security mission.

Sec-Ops was quoted; "We are thrilled and honored to be selected by the RTA to be a part of the security team. We are dedicated to the security staff and board members who have allowed us this great opportunity to participate in this important mission. We are proud to be working with the RTA Staff and the local government officials who occupy as tenants in the staples street center supporting the security mission. We are confident in our performance that the experience, professionalism and capability that we have developed over our 14 years of service will ensure success for this important contract." says Robert Lott – President, Sec-Ops, Inc.

About Sec-Ops, Inc.

Headquartered in Corpus Christi, Texas, Sec-Ops provides their selected clients with facility and security services ranging from quality trained security personnel, integrated security solutions designed for today's IT environments, and emergency management services.
