

We make your Secondary Operations our primary responsibility

FACILITY & SECURITY SERVICES
Sec-Ops uses a consultative approach to understand our client's business and technical requirements in order to provide a proactive solution in order to meet their needs.

As a systems integrator, we endeavor to always leverage our client's existing investment in technology before any recommendation of any new acquisitions ensuring a lower cost benefit.

SECURITY TECHNOLOGY
Sec-Ops uses only non-proprietary systems and products in order to support our clients security needs. This enables our team to provide cutting edge technology that will integrate in to the entire system and easily accept new technology as it is developed and released without having to replace the clients initial investment.

NON PERSONAL SERVICES
Sec-Ops will provide the quality personnel services to fill that contracted position, meeting or exceeding the requirements set forth by the client.

EMERGENCY MANAGEMENT
Sec-Ops offers all range of the services designed for companies who have emergency management responsibilities for their facilities and personnel. We can provide assistance in Incident Management; Operational Planning; Disaster Logistics; Emergency Communications; Transportation and housing, services to Disaster Victims.

- ** Cage: 42HK3 DUNS: 199724894 Federal ID: 20-2752378**

Sec-Ops is a leading industry provider of high quality Facility and Total Security services for over 15 years. Serving commercial Energy Industries, Navigation Districts, Sea Ports and Government Agencies, Sec-Ops has built a reputation of delivering quality services that meet or exceed our client's requirements and expectations. Sec-Ops certification for SDV is validated by the SBA, South Central Texas Regional Certification Agency, Houston Metro, and the Department of Veteran Affairs. Sec-Ops is a certified Federal HUBZone and Texas HUB Small Business Enterprise.

Sec-Ops is a trusted and experienced Commercial and Government Services contractor in the industry. As a CVE Certified Service Disabled Veteran Owned Business with a proud history and a strong management structure providing an expanded experience base, Sec-Ops is moving forward into the future as a national services company. Sec-Ops, with its national partners and strategic subcontractors, have experience performing Facility Services, Food and Mess attendant Security technology, Guard Services, Armed Escort and transportation, Security Training, Logistics and design-build services for Federal, State, and Local governments across the United States.

Over 15 years of Quality Service
Over 175 years of Experience on Staff

We emphasize our capability to provide quality personnel with the training and background experience required to meet the service contract requirements in all NAICS codes listed.

We make your Secondary Operations our primary responsibility

Services

We also specialize in IP based Security Technology including CCTV, Access control, gate operators, vehicle and life safety systems, and security systems design services. We are prepared to provide the "best value" flexible service solutions that are custom-tailored to meet the needs of your facility in providing professional services. Our success is based on delivering the highest level of operational excellence with superior customer service and responsiveness.

TECHNICAL SUPPORT

The complexities of today's security management systems have taken most end users beyond simple integration. Our tech support personnel leverage the information gathered by both video and physical security management systems and provide an integrated solution for use across all business operations. This is our prime objective.

DESIGN-BUILD SERVICES

Sec-Ops is a solution provider that offers a robust and complete customized service. For Brownsville Navigation District, Sec-Ops assembled the team and designed, integrated and installed the first TWIC compliant access control system as a part of the TSA TWIC pilot program.

TURNKEY SOLUTIONS

Sec-Ops is also a turnkey solution provider that offers consultation and one or more established product packages, procedures, or processes that allow minimal configuration in order to implement.

MOBILITY

We are able to conduct business across the Nation with a suite of services and security products without risk of proprietary systems. Allow us to help take the complexity out of the effective solutions.

We are familiar with all personnel security requirements, Sec-Ops maintains a facility security license. Our employment requirements ensure all personnel will qualify for clearances if required. All personnel are background checked for State licensing and hold valid licenses. Sec-Ops meets all Federal and State regulatory requirements. **Description of Services Provided:** Sec-Ops uses a consultative approach to understand our client's business, technical and contract requirements in order to provide a proactive solution in order to meet their needs.

Sec-Ops offers quality service in the following NAICS codes:

- | | |
|--|--|
| 561210 Facilities Support Services (Primary) | 624230 Emergency & Other Relief Services |
