Sec-Ops is a trusted and experienced Commercial and Government Facility Services contractor. As a total facility services provider with an impressive and proud history with a strong management structure providing total facility solutions that are affordably priced and establish the base line in customer care. Sec-Ops, with its national partners and strategic subcontractors, have experience performing the most demanding Facility Services ranging from Security technology, Guard Services, Security Training, Logistics and design-build services for Federal, State, and Local governments across the United States. We emphasize our capability to provide a full range of facility products & delivery services, emergency management, facility security, Operations and Maintenance services while meeting total quality objectives.

We make your Secondary Operations our primary responsibility

Logistic Services

We specialize in a wide range of facility products for your industry and delivery services that are reliable. We are prepared to provide the “best value” flexible service solutions that are custom-tailored to meet the needs of your facility in providing our professional services. Our success is based on delivering the highest level of operational excellence with superior customer service and responsiveness.

Background and experience: Sec-Ops has extensive experience in supply logistics services. We have distribution agreements in order to support a full range of product delivery operations. Sec-Ops meets all Federal and State regulatory requirements, and we follow all required regulations for logistic support services.

Pick-Up & Delivery

Operational Efficiency – Mobile workers by definition are out of sight. Route optimization, navigation, item level tracking along with advanced data collection solutions can deliver the workforce transparency and control needed to improve efficiency.

New Revenue Opportunity & Revenue Assurance – Customers want to see the details now. Leading edge data management, document management and enhanced workflow applications can supply the visibility and verification needed to ensure your revenue flow.

Improved Customer Service – Can your systems fix problems your customer isn't even aware of? Your systems need to keep you on top of the game and one step ahead. Validated data collection can spot a problem before it impacts your service, allowing you to correct and redirect before any damage is done.

LOGISTICAL SUPPORT

The complexities of today's logistics systems have taken most end users beyond simple business support. Our logistics support personnel leverage the information gathered by supply services and management systems to provide an integrated solution for all your product and delivery needs supporting all business operations. This is our prime objective.

PRODUCT SERVICES

Sec-Ops is a solution provider that offers a robust and complete product services customized for your facility. Online ordering, timely processing, quick delivery and accurate billing are the baselines of logistics operations.

TURNKEY SOLUTIONS

Sec-Ops is also a turnkey solution provider that offers consultation for repetitive orders, automated services and one or more established product packages that allow minimal efforts to support your supply needs.

MOBILITY

We are able to conduct business across the Nation with a suite of products and services without risk of lost orders. Allow us to help take the complexity out of the effective logistics systems.
