

CHIPPING AWAY AT WILDFIRE RISK

Burn piles may help you reduce fuel on your property during the cold and wet season. But when CAL FIRE makes the call that burning is no longer safe or allowed, it's the **chipper to the rescue!**

EMCFSC will be scheduling chipping events and we may be coming to your neighborhood. To stay in the KNOW about the chipper's schedule, please fill out an inquiry form. We will sign you up for our newsletter where you will find announcements. Leaving your address and neighborhood concerns will help us prioritize the chipping schedule.
