

BIO-PLUS

ODOUR CONTROL CLEANING CONCENTRATE

GENERAL DESCRIPTION

BIO-PLUS is an eco-friendly, all Purpose Concentrate Cleaner & Odour Control product with a unique biochemical formulation consisting of a synergistic blend of selected Bacillus micro-organisms that provide exceptional performance over a wide range of organic waste related applications.

AREAS OF APPLICATION

BIO-PLUS is an excellent all-purpose cleaner for urinals, floors, walls, carpets, ceilings in and around garbage areas, Food Service Equipment / Automated Hood Wash Systems, drains and areas where detergents, oils, greases and sludge tend to accumulate. Excellent in restaurants, cafeterias, nursing homes, hospitals, schools and other facilities.

SPECIAL FEATURES

Controls Odour – From grease, oils and garbage accumulation. **Highly effective in urinals** (or any area where organic protein deposits are present) to break down insoluble protein complexes and urea salts which accumulate in traps and drains.

Degreaser-Superior degreasing properties attack problem areas floors, walls, showers, garbage collection and storage areas, septic tanks, food service areas, automated hoods.

Fragrance – Opaque blue liquid fragrance biologically attacks the source of odours by eliminating the problem.

Composition – Non Acid, Non Caustic, Non Toxic, Non Fuming, Non Flammable, Non Hazardous, Non Polluting, Biodegradable.

Non-WHMIS regulated

USE DIRECTIONS

Floors/Drains/Walls: pour 3 oz into bucket of wash water and mop up in normal manner. For heavy odours spray concentrate directly from the bottle. Dilution may vary dependent on build up. If possible leave end of day mopping wet on floor to work while drying. Can be used in floor washer systems, dilution rate based on gallon size.

Refuse areas, dumpster and compactors: Dilute 1 part Bio-Plus with 25 parts water and spray to wet the surface. For compactors, spray each time the unit is used. Bio-Plus can be set up to feed automatically each time the unit compacts.

Urinals: Add 2 oz of concentrate to the base of the urinal daily for 2 weeks, then once weekly. For the daily cleaning mix 5:1 for inside, outside and floor of urinal. Can be used in drip system.
