To Whom It May Concern:

For several years now, Loyalist College has enjoyed a business relationship with MAC & CO, environmental solutions. During this time, the employees of MAC & CO, have proven to be very diligent and professional in carrying out their tasks with respect to providing a service to the College.

Loyalist has three very busy kitchen areas, as well as a large number of washroom facilities, which experience a great deal of traffic on a daily basis. It has been the responsibility of Mac & CO employees to service and maintain the sanitary drain systems in these areas, on a continuing basis. Loyalist College has in excess of 3000 full time students enrolled at the Belleville Campus, combined with the daily number of visits from the general public; one may well imagine the extent of use that these facilities are subjected to, every day.

The employees of MAC & CO have always tried to keep the best interests of the College in mind, while carrying out their services, and I would personally recommend their services to anyone who is considering contracting out this type of service.

Thx,

*Grant Brummell*
