

November 3, 2025

Hi Janice,

“We recently had our kitchen hood and vent system professionally cleaned, and the experience was exceptional from start to finish! The team arrived on time, worked efficiently, and demonstrated great attention to detail throughout the entire process. Our city recreation facility canteen spaces now looks spotless. Not only did they remove the built-up grease and debris, but they also ensured everything was left clean and ready to use—no mess, no hassle. The difference in air quality and overall kitchen performance was noticeable right away.

We truly appreciate the professionalism, courtesy, and quality of work provided by Ryan and his team. I would highly recommend Mac & Co for their hood and vent cleaning services to any facility that values cleanliness, safety, and excellent customer service!”
