STARTING SCHOOL

We are so excited to welcome our teachers back and begin another year of learning!

As we transition from summer programming into the new school year, we invite our families to join us for the following events:

AUGUST 7TH

OPEN HOUSE 5PM-6PM

Meet your child's teachers, learn more about their classroom and academic routine, and hear what you can expect during the upcoming school year.

PARENTS NIGHT OUT 5PM-8PM

For \$20/per child you can drop the kids off and we will enjoy pizza, games, and movies. Siblings under 10 are welcome! We encourage you to head over to our Open House during this time.

AUGUST 10TH

FIRST DAY OF SCHOOL

Students will officially begin their school-year schedules, reconnect with their teachers, and start working toward new academic goals.

Social Skills

SHARING AND PLAY

Skills like taking turns, joining a game, sharing toys, and accepting another person's ideas of play may require practice and intervention.

Play is fun, but it also involves many social and communication skills.

Communication

MORE THAN WORDS

Children communicate through words, gestures, facial expressions, pictures, devices, and behavior. Paying attention to all forms of communication can help us better understand their needs.

ABA Terms

TASK ANALYSIS

A task analysis breaks a larger activity into smaller, teachable steps. For example, handwashing may be divided into turning on the water, using soap, rinsing, and drying.
