## Fundraising

### WHY DO WE DO IT?

You may notice that we host a lot of fundraisers throughout the year—and we want to share why.

Every dollar raised goes directly back to our clients and their experiences. Fundraising allows us to provide special opportunities, such as community outings, field trips, themed activities, and hands-on learning experiences.

These moments give our clients chances to practice real-world skills like social interaction, communication, and flexibility in fun, meaningful ways.

Beyond skill-building, these activities help create positive memories, boost confidence, and make therapy something our clients genuinely look forward to.

Your support helps us continue turning everyday learning into experiences that feel exciting, enriching, and memorable.

## Valentine's Day

### ITS FINALLY TIME!!

Each year, our clients work with their RBTs to create/decorate their own boxes, practicing creativity and following instructions.

To keep this tradition special, we kindly ask that families avoid purchasing store-bought Valentine's boxes.

## Gift Giving Guide

### UNDER THE BACB'S PROFESSIONAL AND ETHICAL COMPLIANCE CODE FOR BEHAVIOR ANALYSTS

Behavior Analysts and Technicians (RBTs) do not accept any gifts from or give any gifts to clients because this constitutes a multiple relationship.

## ABA Terms

### PROMPT FADING

This is the process of gradually reducing the help your child is given so they can successfully complete skills on their own and build independence over time
