- **1 year on All American Sports Academy**
- **Currently playing at Chabot Community College**

Little about me

I've been passionate about softball since I first picked up a glove at five years old. I started playing competitively in 8U and never looked back. Throughout high school, the softball field was my favorite place to be.

During my senior year, a season-ending injury shifted my perspective, but it also opened a new door-coaching. Although I had been giving private lessons since 2019, I felt inspired to get more involved. I became an assistant coach for a 14U A-level team and quickly discovered how rewarding it is to support young athletes and help them grow in the game I love.

Since then, I've continued coaching each season where I am needed, and I'm excited to bring that same energy and passion to All American Sports Academy. Coaching allows me to stay connected to the game and help the next generation of players develop both on and off the field.
